ROSE HILL NURSERY

Nurserymen

Landscape Architects

BOX 495 MINNEAPOLIS 1 OR ST. PAUL 8, MINN.

Established 1874

*Your Home —
A place of beauty*

The Modern Way To Plant The Home Grounds

PLANTING SHOULD BLEND THE HOUSE WITH THE GROUNDS

Most houses appear bare and cold without the softening influence of planting about the house foundation. Use graceful flowering shrubs and other plants to take away the abrupt and harsh separation of house and grounds. The fragrance of flowers, the color and texture of foliage, the contrast of twig and berry are but part of the beauty you will enjoy from plants in the foundation planting.

It is in good taste to leave the front yard open to the public view and to make this portion of your grounds so attractive that it makes a pleasing impression on the passerby.

For the utmost in attractiveness in this area, plan to have an open stretch of well kept lawn framed on either side by plantings of evergreens and shrubs placed in pleasing arrangement. Plant trees for their comfortable shade and for framing the view of your house.

MEMORIAL PLANTINGS GAIN PUBLIC ACCEPTANCE

The value of planning living memorials to the nation's heroes has been recognized in the minds of our people since World War I. One memorial plan is to establish roadside picnic areas, beautified by fine plantings of shrubs and trees, with good water and arrangements for barbecues. Another is to establish a sanctuary for wild birds and still another to set up a series of areas for the propagation of wild game. One city project provides for the planting of trees along its principal streets, each tree marked by the name of the home town boy who fell in the war. The end of World War II marked the beginning of a new era in memorial creation, which, if properly organized and administered, will result in worthwhile memorials of lasting beauty.

Landscaping of Industrial Properties

More and more businessmen are recognizing the desirability of beautifying the grounds of factories, office buildings, show rooms and other service buildings. A lawn thoughtfully planted with shade trees, evergreens and shrubs will pay dividends through the favorable reaction of your customers, your employees and the general public.

Display is becoming increasingly important in the sale of any product.

Our landscape architects will be pleased to give suggestions and estimates of costs for industrial property beautification.

"IT'S NOT A HOME UNTIL IT'S PLANTED"

Now...

Everyone Can Have an Outdoor Living Room

In place of an open rear yard within the view of everyone, you should plan a private outdoor living room. Here you can enjoy the sunshine, and work among your shrubbery and gay flowers out of the sight of prying eyes. Let the turf provide a green carpet; plant beautiful trees, shrubs and evergreens to make the walls which set the room apart and screen it from view. Plant hardy perennial flowers along the borders to provide fragrance and color. Then locate a few trees to provide comfortable shade and fruit. Altogether you will have a room as delightful as anyone could dream, a room which will give you countless hours of enjoyment and satisfaction.

EARLY PLANNING SECURES THE MOST PROMPT SERVICE

We welcome the opportunity to plan for you at any time that meets with your convenience, but we can give the most prompt service before the rush brought by the warm days of spring. Snow on the ground is no hindrance to planning. February and March requests for planning help are especially welcome.

OUR LANDSCAPE SERVICE TO CUSTOMERS OF THE TWIN CITIES AND SUBURBS

Upon request, one of our landscape architects will call and consult with you if time can be spared from the office. During April and May the press of business at the office is such that only a limited number of calls can be made. Calls before or after these months can be given more prompt attention. In many cases planting suggestions and costs can be given during the call. However, if necessary, a plan and estimate is prepared and presented for consideration.

Or, you may bring a picture of your house or measurements of that part of your grounds you wish us to plan for and we will help you at the office. We suggest that you phone or write us for appointment to assure an architect being in when you come.

In addition to providing a plan for your grounds and supplying the stock, we provide planting crews to plant this stock for you if you wish. See planting charges on page 2. Phone NEstor 7541 from either Minneapolis or St. Paul.

HOW WE SERVE OUT-OF-TOWN CUSTOMERS BY MAIL OR PERSONAL CALL

We offer a helpful mail advisory service to out-of-town customers. Upon request we will mail a chart, illustrating what information is required to enable our architects to help you intelligently. When you send us the necessary information we will suggest how to make your property most attractive.

In the developing of larger residence properties, grounds about public buildings, factories, salesrooms and other industrial properties and parks or cemeteries, a personal call by one of our landscape architects is often advantageous. Our architects are available for such calls and we will gladly give full information regarding the cost of their services upon request.

Competent foremen are available to out-of-town residents who desire our supervision in the carrying out of a landscape development.

ROSE HILL NURSERY

P. O. Box 495, Minneapolis 1, Minn.

or

St. Paul 8, Minn.

DELIVERY — SHIPPING — POSTAGE

Prices in this catalog are F.O.B. Twin Cities. There are no charges for packing or boxing.

ST. PAUL AND MINNEAPOLIS ORDERS

All orders of \$2.50 or over are delivered free of charge. On orders for less, a delivery charge of 50c is made.

OUT-OF-TOWN ORDERS

When not instructed we will use our best judgment as to shipping via express, motor freight or train freight.

PARCEL POST

If you desire shipment by parcel post, so specify on your order and add to the purchase price the following charge to cover postage and handling.

- (1) On all orders of \$5.00 or less, add 10% to the purchase price when sending your remittance.
- (2) On all orders over \$5.00, add 5% to the purchase price when sending your remittance.

NURSERY OFFICE HOURS

The office is open from 8:00 A.M. to 5:30 P.M. To accommodate customers who cannot call at the nursery during the regular hours, a small force is on hand until 8 P.M. during April 10th to June 1st.

SELECT YOUR OWN TREES

Our customers are welcome to select trees without extra charge in our 100 acre nursery. There is satisfaction in selecting your own trees where there are thousands of shade trees and evergreens to choose from. If you cannot do so, however, we will make careful selection for you.

Direct from the grower you are assured fresh, healthy plants that have not been weakened by exposure in stores or sales grounds.

BENEFITS OF ORDERING EARLY

It is suggested that orders be placed as early as possible to insure the best selection of stock and prompt delivery when planting time arrives.

FREE PLANTING BOOKLETS

A booklet giving instructions for the planting and care of nursery stock accompanies each order. Purchasers of grass seed should ask for the booklet "How to make a lawn."

THE PLANTING SEASONS

Planting may be done in the spring, generally about April 1st to June 1st, or in the fall from September until the ground freezes solid.

PLANTING CHARGES

Customers are urged to do their own planting whenever possible and thus save planting costs. A booklet with plain planting instructions is furnished with each order. We offer a planting service, however, at the following rates for the Twin City area.

60% of the cost of trees, shrubs and perennials is charged for planting them.

40% of the cost of evergreens is charged for planting.

30c per lineal foot is charged for planting hedges.

\$2.50 is the minimum planting charge.

When it is necessary to supply good soil, rich planting soil is furnished and charged for as used.

Carting away of poor soil or debris is charged for at a very reasonable rate, depending upon the quantity.

EXPERIENCED GARDENERS

From June 1st to October 1st we have available experienced men for trimming hedges and shrubs and for general garden work.

Prices in This Catalog Are Subject to Change Without Notice

Rose Hill Guarantee

We use every precaution in the growing and handling of our stock to supply only plants of highest quality full of life and vigor. However, the Rose Hill Nursery agrees to replace at one-half the original price, any nursery stock purchased direct from them at the prices listed in this catalog, that dies the first growing season. Prompt payment of accounts must be made in full and report made by October 10th of that season.

Visit Our Nursery

Here at Rose Hill Nursery you will find a hundred acres of the highest quality trees, shrubs, evergreens and hardy perennial flowers. Come and visit us—you are most welcome.

HOW TO REACH THE ROSE HILL NURSERY

From MINNEAPOLIS, by auto, drive out East Hennepin Ave., directly to the Nursery, which is located two blocks east of the city limits.

From Minneapolis, by streetcar, take Como-Harriet car going towards St. Paul, get off at Eustis Street and walk three blocks north.

From ST. PAUL, by auto, drive north on Snelling Ave. past Fair Grounds one-quarter mile to Larpenteur Ave. (also known as County Road A), turn west (left) one and one-half miles to our office.

From St. Paul, by streetcar, take Como-Harriet streetcar going west, get off at Eustis Street and walk three blocks north.

High Quality Lawn Grass Seed

When purchasing grass seed, ask for the booklet, "HOW TO MAKE A LAWN." It tells how to make a lawn and how to take care of it.

The production of grass seed mixtures has, through intense study, become highly specialized. Rose Hill Nursery offers lawn seed which is composed of a mixture, in correct proportions, of the grasses that have proven most satisfactory for this section. Only the highest quality seed of the various kinds is used; for the difference in cost between the very best seed and cheap seed is so little, and the difference in results from their use is so great. In grass seed it is false economy to buy anything but the best seed.

Use 1 pound to 200 square feet of new lawn area to be seeded.

ROSE HILL LAWN SEED

The combination of seeds used in this mixture is the result of our many years of creating beautiful home grounds. Though the highest grade Kentucky Blue Grass forms the basis of this mixture, because Blue Grass makes the finest Minnesota lawns, other grasses are used to hasten the lawn and act as a nurse crop to the blue grass seed, which is slow to germinate. No better lawn seed can be bought at any price and we highly recommend it to you as a mixture which will produce a beautiful, thrifty lawn in the shortest possible time.

1 lb.	\$0.80	3 lbs.	\$2.35	5 lbs.	\$3.75	10 lbs.	\$7.20	20 lbs.	\$14.00
------------	--------	-------------	--------	-------------	--------	--------------	--------	--------------	---------

ROSE HILL SHADY PLACE SEED

This mixture has been especially developed to produce a lawn in fairly dense shade. Under evergreens and low branched trees, where no sun ever strikes, no grass can possibly survive, but where the shade is not too dense this mixture will prove satisfactory.

1 lb.	\$0.85	3 lbs.	\$2.45	5 lbs.	\$4.00
------------	--------	-------------	--------	-------------	--------

ROSE HILL WHITE CLOVER

White clover foliage gives an appearance of richness to the lawn and the flowers find favor with many persons. May be seeded into established lawns to encourage a more luxuriant-appearing growth.

Half lb.	\$1.00	1 lb.	\$1.95
---------------	--------	------------	--------

RICH SOIL

We offer two grades of rich soil, delivered in such areas of the Twin Cities as restrictions will permit.

PLANTING SOIL: For use in planting—unexcelled for plants to grow in. 1 bu. **60c.** 2 bu. **\$1.00.**

TOP DRESSING SOIL: To top dress the lawn. Is more finely pulverized than the planting soil, spreads easily. Call NEstor 7541 for prices and delivery areas of planting soil and top dressing soil by the cubic yard.

ROSE HILL FERTILIZER

Rose Hill Fertilizer is scientifically manufactured to be used in gardens, for feeding trees and on the lawn in the North Central states. It is odorless and pleasant to handle. Persons, who are wise in fertilizer buying, judge the value of the fertilizer by the chemical analysis, which law requires be printed on every package of fertilizer. Rose Hill Fertilizer ranks among the very best in plant food value. The guaranteed analysis is Nitrogen 6%, Available Phosphoric Acid 10% and water soluble Potash 4%. Lawns especially require Nitrogen for luxurious growth. Being highly concentrated a small quantity of Rose Hill Fertilizer covers a large area.

All vegetation is benefited by the intelligent application of a fertilizer because it supplies the soil with available plant food. Such application is followed by profit in the form of finer lawns, trees, shrubs, flowers and fruit.

Use 1 pound to each 35 square feet or 100 pounds to each 3,500 square feet. See diagram on page 18 for proper amounts and method of use for feeding trees. Complete directions for applying accompany each bag of fertilizer.

100 lb. bag.	\$3.75	50 lb. bag.	\$2.00
25 lb. bag.	1.25	10 lb. bag.60

Beautiful Grounds Express Refinement and Good Taste

PULVERIZED PEAT

An excellent material to spade into soils to make them in better condition for plant growth. Peat causes a clay soil to become more friable and holds moisture in sandy soils. Used as a mulch about plants or as a top dressing for lawns it helps greatly to conserve moisture. Odorless and pleasant to handle. 1 bu. **65c.** 2 bu. **\$1.10.** Call NEstor 7541 from either city for prices and delivery areas of peat by the cubic yard.

ROTTED MANURE

Thoroughly decomposed barnyard manure. Supplies plant food and improves the condition of the soil, making it better suited for root growth. 1 bu. **75c.** Call NEstor 7541 from either city for prices and delivery areas of manure by the cubic yard.

Evergreens

PRICES INCLUDE BALLING
AND BURLAPPING OF
ALL EVERGREENS

THIS means that the tree is dug from the soil with the earth remaining undisturbed about the roots of the tree. The ball of earth is securely fastened with burlap. This method practically insures safe transplanting.

A PLANTING FOR THE FRONT OF THE HOUSE

Key	Variety	Key	Variety

5	Arborvitae, Pyramidal		

Rose Hill Evergreens Are Famous
for Their Beauty

PLEASE NOTE—Excepting the small sizes which may be shipped by express, balled evergreens are best shipped by freight or truck line. Twin City orders delivered free.

Juniper, Pfitzer's

Juniper, Savin

In some varieties we have larger sizes than listed, upon which we will be glad to quote prices.

ARBORVITAE, Pyramidal. (*Thuja Occidentalis Pyramidalis*.) A popular evergreen, being of compact, shapely, pyramidal habit. The foliage is a most attractive, bright green. Fine for use at the house entrance or elsewhere about the foundation where a narrow growing evergreen is wanted. Delightful also in other situations about the grounds where an evergreen of this form is desired. See picture, page 6.

2 1/2 to 3 ft.	\$ 5.00
3 to 4 ft.	7.00
4 to 5 ft.	10.00
5 to 6 ft.	12.00
6 to 7 ft.	17.50

ARBORVITAE, Siberian. (*Thuja Occidentalis Wareana*.) A compact, symmetrical grower of neat habit. Conical in form. The deep green foliage holds its color well during winter.

18 to 24 in.	\$4.00
24 to 30 in.	6.00
30 to 36 in.	8.00

JUNIPER, Andorra. (*Juniperus Communis Depressa Plumosa*.) A comparatively new variety of low, spreading habit. Plants seldom reach over fifteen inches in height, but will spread several feet wide. Its main distinction is the unusual pinkish lavender coloring of its foliage when frost comes in the fall. This attractive tinge is retained by the foliage until spring, when it changes to an attractive green.

15 to 18 in. spread	\$3.75
30 to 36 in. spread	7.00

JUNIPER, Globe Red Cedar. A ball shaped form of the Red Cedar. Identical with the Red Cedar in all respects excepting as to shape of the tree, which in the common Red Cedar grows upright and slim whereas this form is round.

18 to 24 in. spread	\$4.50
24 to 30 in. spread	5.50
30 to 36 in. spread	7.00

JUNIPER, Globe Silver Cedar. (*Juniperus Scopolorum Globosa*.) A compact globe form of Silver Cedar that is perfectly hardy. The silvery blue color is retained throughout the winter. The trees we offer are grafted which produce trees of a more attractive color and uniform shape. A good substitute for Globe Arborvitae.

15 to 18 in. diam.	\$4.00
18 to 24 in. diam.	5.00
24 to 30 in. diam.	6.50

JUNIPER, Pfitzer. (*Juniperus Pfitzeriana*.) A low, spreading tree with attractive green foliage. Will grow under almost any condition of soil or exposure. Stands considerable shade. Very desirable. See picture.

15 to 18 in. spread.....	\$ 3.50
18 to 24 in. spread.....	4.50
24 to 30 in. spread.....	5.50
30 to 36 in. spread.....	7.00
3 to 4 ft. spread.....	10.00

JUNIPER, Red Cedar. (*Juniperus Virginiana*.) Of pyramidal form, densely branched. Bright green in early spring, gradually darkening during the summer. Pinkish tinge to foliage in late fall. Is very hardy thriving most everywhere and can be trimmed. Very useful in landscape plantings. Good for tall, narrow effects when kept trimmed or equally good untrimmed in a naturalistic effect. See picture, page 7.

2½ to 3 ft.....	\$ 4.50
3 to 4 ft.....	6.00
4 to 5 ft.....	8.00
5 to 6 ft.....	11.00
6 to 7 ft.....	15.00
7 to 8 ft.....	17.50

JUNIPER, Savin. (*Juniperus Sabina*.) A low, many-branched type, usually not over two to three feet high. Its branches are spreading, dense, heavily clothed with dark green foliage. A hardy, desirable dwarf evergreen. A general favorite. Very desirable for planting in front of taller evergreens in a foundation setting or wherever a low evergreen is needed. See picture to left.

12 to 15 in. spread.....	\$ 3.00
15 to 18 in. spread.....	3.50
18 to 24 in. spread.....	4.50
24 to 30 in. spread.....	5.50

3 to 4 ft. spread.....	10.00

**NOTE—ALL
EVERGREENS
OFFERED ARE
BALLED AND
BURLAPPED**

Mugho Pine

JUNIPER, Silver Cedar, (Grafted.) (*Juniperus Scopulorum*.)

This grafted type is far superior to the ordinary Silver Cedar grown from seed because they are uniform in color and symmetrical in shape. This attractive evergreen is a bright silver blue in color which is most pronounced during hot, dry weather. It is a fine substitute for the Pyramidal Arborvitae where that tree does not thrive, being narrow, symmetrical and compact. It is not subject to breakage from heavy snows. The selected type we offer insures an even silvery blue color and uniform growth. This evergreen holds its blue color during the winter and is truly beautiful the year around. During extremely dry years when all varieties of Arborvitae as well as most other evergreens suffer serious losses, the Silver Cedar has stood both the dry and cold weather without injury. There is no better pyramidal shaped tree to plant for it is hardy, does not discolor in winter, is compact in growth and dependable. See picture, bottom of page.

2 to 2½ ft.....	\$ 6.50
2½ to 3 ft.....	7.50
3 to 3½ ft.....	8.50
3½ to 4 ft.....	9.50
4 to 5 ft.....	12.00
5 to 6 ft.....	15.00
6 to 7 ft.....	20.00
7 to 8 ft.....	25.00

JUNIPER, Scopulorum. (From Seed, not grafted.) Juniper Scopulorum grown from seed and not grafted are not of uniform color and habit of growth and therefore are much inferior to the grafted type offered above. Because of this, we feel they are not satisfactory and do not offer them for sale.

Junipers and Mugho Pines at an entrance

ROSE HILL NURSERY

Evergreen Foundation Planting

Colorado Blue Spruce

PINE, Austrian. (Pinus Nigra.) One of the most beautiful of the taller growing pines. The tree is broader at the base, tapering toward the top and always presents a neat appearance. Its needles are a rich, deep green color four to five inches long. Perfectly hardy and a dependable grower. Fine to use in landscape plantings where a larger evergreen is wanted. See picture.

2 to 2½ ft.....	\$5.00	4 to 5 ft.....	\$12.00
2½ to 3 ft.....	6.50	5 to 6 ft.....	18.00
3 to 4 ft.....	8.50	6 to 7 ft.....	22.00
		7 to 8 ft.....	30.00

PINE, Montana. (Pinus Montana.) This tree, though quite similar, is a taller-growing type than the Mugho Pine. The darker foliage lends a splendid contrast with other trees. One of the very best evergreens for planting in foundation groups where a tree four to five feet tall is needed. Stands trimming well and can be kept at desired height.

12 to 15 in. spread.....	\$3.00	18 to 24 in. spread.....	\$4.50
15 to 18 in. spread.....	3.50	24 to 30 in. spread.....	6.00

PINE, Mugho. (Pinus Mughus.) Perfectly hardy, dwarf, bushy evergreen. Branches densely clothed with bright green foliage. Holds color well during winter. A very beautiful low evergreen. By shearing it can be kept as small as desired though this is seldom required. One of the best of all dwarf evergreens. See picture, page 5.

12 to 15 in. spread.....	\$3.00	18 to 24 in. spread.....	\$4.50
15 to 18 in. spread.....	3.50	24 to 30 in. spread.....	6.00

PINE, Ponderosa. (Pinus Ponderosa.) The leaves are dark green with stout spreading branches. Branchlets reddish brown, fragrant when broken. Leaves five to eleven inches long. Cones in clusters. When planted alone or in a group this tree makes a beautiful specimen. It is perfectly hardy and a good tree for screen purposes.

2 to 2½ ft.....	\$4.50	3 to 4 ft.....	\$ 7.50
2½ to 3 ft.....	5.50	4 to 5 ft.....	10.00

PINE, Scotch. (Pinus Sylvestris.) A large, rapid-growing tree with spreading branches. Leaves bluish green, about three inches long. Cones reddish brown.

4 to 5 ft.....	\$10.00	5 to 6 ft.....	\$15.00
----------------	---------	----------------	---------

Arborvitae Pyramidal

Black Hills Spruce

How to Plant Evergreens

- (1) Dig hole a foot larger and deeper than ball of earth. Provide good, loamy top soil to fill around ball.

SPRUCE, Black Hills. (*Picea Canadensis Albertiana*.) Foliage varies from green to bluish tint, and is at all times bright and fresh looking. The tree is symmetrical, compact and bushy, and one of the hardiest of all spruces. Planted as a lawn specimen or in the border it is eminently satisfactory. See picture, page 6.

24 to 30 in.....	\$4.50	4 to 5 ft.....	\$10.50
30 to 36 in.....	6.00	5 to 6 ft.....	12.00
3 to 4 ft.....	8.50	6 to 7 ft.....	18.00

SPRUCE, Colorado Blue. (*Picea Pungens Glauca*.) A beautiful tree, well known and admired by all. The blue color is brightest in early summer and gradually changes during the summer to a dull blue color. The tree is perfectly hardy and constitutes one of the most beautiful specimen evergreens available. See picture.

24 to 30 in.....	\$ 6.50	4½ to 5 ft.....	\$17.00
30 to 36 in.....	8.00	5 to 6 ft.....	20.00
3 to 3½ ft.....	9.00	6 to 7 ft.....	25.00
3½ to 4 ft.....	11.00	7 to 8 ft.....	30.00
4 to 4½ ft.....	13.00	8 to 10 ft.....	45.00

SPRUCE, Colorado Green. Vigorous and hardy, resembling the Colorado Blue Spruce except the foliage is green.

18 to 24 in.....	\$4.00	4 to 4½ ft.....	\$10.00
24 to 30 in.....	5.00	4½ to 5 ft.....	13.00
30 to 36 in.....	6.00	5 to 6 ft.....	15.00
3 to 3½ ft.....	7.50	6 to 7 ft.....	20.00
3½ to 4 ft.....	8.50	7 to 8 ft.....	25.00

SPRUCE, Norway. (*Picea Canadensis*.) The needles are short, sharp-pointed and of a bright green color. It grows fast, thriving in extremely cold climates. Especially suitable for tall backgrounds and windbreaks.

5 to 6 ft.....	\$8.50	6 to 7 ft.....	\$12.00
----------------	--------	----------------	---------

HOW TO TRIM EVERGREENS

Evergreens can be trimmed and they should be in many cases. Late May or June is as good a time as any, though the pruning may be done at any time of the year.

Such varieties as the Cedars or Juniper, when planted near the house, should be sheared at least once a year to keep them narrow in form and also to keep the foliage dense.

How often one sees Mugho Pines grown straggly and unkempt because of the lack of a little judicious trimming. Normally each branch will make a shoot, or candle-like growth, of from three to six inches long. Just about the time this candle-like spike has started to put forth the new leaves, or needles, is a good time to trim. In Minnesota this will usually be in early June. Two-thirds or so of this spike should be cut off with a knife or pruning shears to keep the pine densely clothed with foliage and shapely. If this is not done, a loose habit of growth may result.

If necessary to prune severely, because of neglect, branches a foot or so in length may be cut out here and there to regain symmetry. These noticeable cuts will be covered by the new growth during the ensuing season.

The low growing Junipers, as Pfitzers and Savins, should be trimmed at the ends of the branches from time to time to prevent their growing too wide. This is especially necessary when they are planted in the foundation planting.

Spruce trees yield readily to pruning also. Generally, however, the spruce trees secured from a reliable nursery are well shaped to start with and little or no trimming is required. Should an occasional branch assume an awkward growth, no hesitancy should be felt about pruning it to shape the tree better. Cut close to one of the buds developing to produce foliage the next year, in order to hide the cut as soon as possible.

Austrian Pine

Evergreens add a tone of cheer to the landscape especially during the six months other trees have no foliage.

Red Cedar

EVERGREEN PLANTING SUGGESTIONS

FOR CORNER OF HOUSE

Here either the Silver Cedar or the Red Cedar provides the needed height. With a Montana Pine at each side, and either a Pfitzer or a Savin Juniper between these two, the effect is harmonious.

A REFINED MONUMENT PLANTING

A Silver Cedar at each end of the monument with a Juniper Savin in front and in back presents a dignified and refined appearance.

Low Mugho Pines may be used instead of the Savin Junipers, if preferred.

Trees

FOR SHADE AND BEAUTY

At Small Expense You Can Plant a Tree That
Will Grow Into Priceless Value

NOTE—Shade and ornamental trees are usually too large for parcel post and can be shipped freight or express to better advantage.

American Elm

ASH, White. (*Fraxinus Americana*.) A tall-growing native tree. Comparatively free from insect pests and a clean tree. It is very desirable for use as a lawn specimen or for the boulevard. It is long lived and the tough wooded branches are resistant to wind damage. Withstands drought conditions better than most trees. Grows to large size. See picture below.

5 to 6 ft. high.....	\$1.00	1½ in. diam.....	\$3.50
6 to 8 ft. high.....	1.25	2 in. diam.....	4.50
8 to 10 ft. high.....	2.50	2½ in. diam.....	6.00

BASSWOOD or AMERICAN LINDEN. (*Tilia Americana*.) A fine native tree, very suitable for lawn or boulevard planting. The leaves are heart shaped and large. Fragrant, cream white flowers are borne in May and June. Has firm, gray bark. Vigorous growing and a good shade tree.

6 to 8 ft. high.....	\$1.50	8 to 10 ft. high.....	\$2.50
----------------------	--------	-----------------------	--------

BIRCH, Canoe, White or Paper. (*Betula Papyrifera*.) A desirable graceful tree with slender branches and silvery white bark. Leaves deep green and pointed oval shape. Especially effective when planted among or near evergreens. A medium sized tree.

5 to 6 ft. high.....	\$1.50	8 to 10 ft. high.....	\$3.00
6 to 8 ft. high.....	2.00		

BIRCH, Cut Leaf Weeping. (*Betula Alba Laciniata Pendula*.) Silvery white bark, a graceful drooping habit of growth. Leaves very fine and deeply cut. An excellent ornamental tree. See picture, bottom of page.

4 to 5 ft. high.....	\$2.50
5 to 6 ft. high.....	3.00

CATALPA, Hardy. (*Catalpa Speciosa*.) Showy fragrant flowers in large panicles in late June and July. Very large heart-shaped leaves. A decorative lawn tree.

6 to 8 ft. high.....	\$1.75
----------------------	--------

CRAB, Bechtel's Double Flowering. (*Malus Ioensis*.) A small tree with very lovely, double, fragrant, rose-like pink flowers in June. Splendid small tree for the lawn or when planted in the shrub border.

2 to 3 ft. high.....	\$1.25
3 to 4 ft. high.....	2.00
4 to 5 ft. high.....	3.00

Birch, Cut Leaf Weeping

LARGE TREES FOR QUICK SHADE AND ORNAMENT

We have, in several varieties, large trees which require moving with a heavy ball of earth.

Prices, which include planting the trees in the Twin Cities, range from \$80.00 per tree and up. Your inspection of these trees is invited.

White Ash

Chinese Hybrid Elm

CRAB, Hopa. The red new foliage and the beautiful single red blossoms which completely cover the tree in the early spring make this tree the most attractive of spring flowering ornamental trees. The fruit is small, red inside and out, remaining on the tree until autumn. The tree is hardy and blooms while very young. A more delightful small tree, for a restricted space, could not be found.

4 to 5 ft. high.....	\$1.50	6 to 7 ft. high.....	\$3.00
5 to 6 ft. high.....	2.00		

ELM, American. (*Ulmus Americana.*) This majestic tree is noted for its graceful beauty. It is perfectly hardy and of comparatively rapid growth. It is one of the most largely used trees for street planting and as a shade tree for lawns and parks. A very fine tree in every respect. See picture.

5 to 6 ft. high.....	\$1.00	2 1/2 in. diam.....	\$ 6.00

2 in. diam.....	4.50		

CRAB, Dolgo. A highly ornamental tree. The trees not only serve as a handsome lawn specimen but produce beautiful bright red fruit of fine quality which makes a red colored jelly of excellent flavor. The flowers are white flushed with pink. Tree is perfectly hardy and resistant to blight.

3 to 4 ft. high.....	\$1.25	5 to 6 ft. high.....	\$2.00
4 to 5 ft. high.....	1.50	6 to 7 ft. high.....	2.50

CRAB, Flame (Minnesota No. 635.) This is primarily an ornamental crab but the fruits, though small, make an excellent red jelly. The flowers are similar to other crabs but are borne in great profusion. The tree is compact in growth and of medium size, suitable for lawn planting. The fruits are a brilliant red and hang tenaciously to the trees until mid-winter, months after the leaves have fallen. The effect is a mass of flaming red color from August until November. Trees 5 to 6 feet high often have 250 or more brilliant red colored crabs. The fruit is attractive to winter birds.

4 to 5 ft. high.....	2.00	5 to 6 ft. high.....	\$2.50
----------------------	------	----------------------	--------

ELM, Chinese Hybrid. This tree is the product of a cross between the American Elm and the Chinese Elm. Consequently it is a blend of the characteristics of these two. Leaves are larger than the Chinese Elm and branches are not as numerous. The general form of the tree resembles the American Elm. A peculiar characteristic is that the tree is even more rapid in growth than the Chinese Elm, which is a rapid grower. The root system is deep rather than spreading.

1 1/2 in. diam.....	\$3.50	2 1/2 in. diam.....	\$6.00
2 in. diam.....	4.50		

ELM, Lake City. The outstanding characteristic of the Lake City Elm is its upright manner of growth, which develops a conical shaped tree. The foliage is a dark glossy green and of large size. The branches are strong and the tree makes unusually fast growth. The extreme variations of the American Elm is avoided when the Lake City Elm is used.

1 1/2 in. diam.....	\$3.50	2 1/2 in. diam.....	\$ 6.00
2 in. diam.....	4.50	3 in. diam.....	10.00

ELM, Moline. A valuable new type of tree propagated by budding. Of compact but fast-growing habit, with very large leaves of distinct dark blue-green shade.

1 1/2 in. diam.....	\$3.50	2 1/2 in. diam.....	\$ 6.00
2 in. diam.....	4.50	3 in. diam.....	10.00

Bolleana Poplar

HACKBERRY. (*Celtis Occidentalis.*) This tree resembles the American Elm in foliage and twig characteristics. The bark is ridged in an interesting manner. The Hackberry is ideally suited to boulevard and yard planting for it is a beautiful tree and is comparatively free from insect pests and stands city conditions well. It will grow in exposed situations and on poorer soil than many other trees. The sweet berries provide bird food.

8 to 10 ft. high.....	3.00

Horsechestnut, Ohio Buckeye

ROSE HILL NURSERY

MAPLE, Norway. (Acer Plantanoides.) A large, handsome tree with round spreading head. The broad leaves of dark green color cast a dense shade and turn pale yellow in the autumn. Fine ornamental shade tree.

5 to 6 ft. high.....	\$2.50	8 to 10 ft. high.....	\$5.00
6 to 8 ft. high.....	3.50		

MAPLE, Schwedler's. (Acer Platanoides Schwedleri.) Commonly called Red Leaf Maple. One of our most ornamental shade trees. The foliage, dark red in the spring, gradually turns to green later in the season. The leaf coloring of this tree makes it one of the most desirable of our shade trees.

5 to 6 ft. high.....	\$3.50	1 1/2 in. diam.....	\$ 8.00
6 to 8 ft. high.....	4.50	2 in. diam.....	10.00
8 to 10 ft. high.....	6.00		

MAPLE, Soft. (Acer Dasycarpum.) Sometimes called Silver Maple. A rapid-growing hardy tree. The foliage and branches of the tree are clean-looking and attractive. A very good tree where fast growth is essential.

6 to 8 ft. high.....	\$1.25	2 in. diam.....	\$ 4.50
8 to 10 ft. high.....	1.75	2 1/2 in. diam.....	6.00
1 1/2 in. diam.....	3.50	3 in. diam.....	10.00

MAPLE, Sugar or Hard. (Acer Saccharum.) A large tree of stately beauty. The ascending branches attain a symmetrical oval head. Bark light brown-gray. Leaves smooth, varying from a bright light green to deep green above, coloring beautifully in the fall.

5 to 6 ft. high.....	\$2.50	1 1/2 in. diam.....	\$6.50
6 to 8 ft. high.....	3.50	2 in. diam.....	8.50
8 to 10 ft. high.....	5.00		

MAPLE, Tatarian. (Acer Tataricum Ginnala.) A graceful shrub-like tree with handsome foliage which turns to bright red in autumn. The brilliance of this coloring is unsurpassed.

2 to 3 ft. high.....	\$0.75	4 to 5 ft. high.....	\$1.50
3 to 4 ft. high.....	1.00		

MOUNTAIN ASH, European. (Sorbus Aucuparia.) A very decorative tree admirably suited to planting on home grounds and parks throughout the Northwest. Its clean branches and interesting foliage recommend it all summer long, while it is striking in appearance when the orange red berries cover it in August. These berries cling long into winter and furnish bird food. Creamy white clusters of flowers appear in May and June. The foliage turns an attractive reddish tinted yellow in the fall.

4 to 5 ft. high.....	\$1.50

8 to 10 ft. high.....	4.00
1 1/2 in. diam.....	5.00
2 in. diam.....	6.00
2 1/2 in. diam.....	8.50

MOUNTAIN ASH, Oak-Leaved. (Sorbus Quercifolia.) The upright branches of this tree form a pyramidal head. The leaves are shaped similar to those of the Oak. White flowers are followed by orange-crimson berries. A splendid variety for lawn plantings.

5 to 6 ft. high.....	\$2.00
6 to 8 ft. high.....	2.50
2 in. diam.....	7.00

MULBERRY, Russian. (Morus Alba Tatarica.) A low-growing, very bushy topped small tree. Leaves small and many-lobed. The edible fruit is sweet and resembles a blackberry. Attractive to the birds.

5 to 6 ft. high.....	\$2.50
6 to 8 ft. high.....	3.00

PLUM, Purple-Leaved. (Newport.) Highly decorative small tree. See page 14.

POPLAR BOLLEANA. (Populus Bolleana.) Of erect columnar form. The attractive leaves are dark green on the upper surface and white beneath. The silvery gray bark is clean and healthy looking. Excellent to use where a tall narrow tree is needed next to a house. Fine too for use in a screen planting shutting off the alley or some other uninviting view. See picture, page 9.

8 to 10 ft. high.....	1.50	2 1/2 in. diam.....	4.00
		3 in. diam.....	5.00

POPLAR, Norway. A hardy rapid-growing tree. Resembles the Carolina Poplar.

6 to 8 ft. high.....	\$1.25
8 to 10 ft. high.....	1.50

WALNUT, Black. (Juglans Nigra.) A handsome majestic, native, nut-bearing tree. The leaves are bright light-green, turning yellow in autumn. The edible nuts are almost round, the meat is sweet, richly flavored and oily. A very satisfactory, quick-growing tree, excellent for the lawn.

6 to 8 ft. high.....	\$ 3.00
8 to 10 ft. high.....	4.00
2 1/2 to 3 in. diam.....	10.00

WILLOW, Niobe Weeping. (Salix Vitellina Niobe.) A beautiful weeping tree with golden bark. The graceful drooping branches are ornamental both summer and winter. An ideal tree when planted in the lawn. Perfectly hardy and rapid growing.

5 to 6 ft. high.....	\$1.50
6 to 8 ft. high.....	2.50
8 to 10 ft. high.....	3.50

Lombardy Poplar

The Best of All Gifts
A ROSE HILL GIFT CERTIFICATE

For Mother's Day, Birthday, Christmas or other special occasions, there is nothing more delightful than a gift of a beautiful Colorado Blue Spruce, a Red Leaved Maple, Ever-blooming Rose Bushes, Peonies or Phlox. Such a gift grows in beauty and value; each year the memory of the giver is cherished more and more.

Give a ROSE HILL GIFT CERTIFICATE for any article you may choose or for a certain amount, the selection to be left to the one receiving the gift. The pages in this catalog offer a wide variety to choose from.

Decorative Shrubs

Fresh, Vigorous Plants—Sure to Grow

FLOWERING shrubs create natural beauty and loveliness and are indispensable to the landscape gardener.

Please note what an important part shrubs play in the landscape design to the right.

Against a house foundation the shrubs blend the house with the grounds and create a lovely softening effect. On both sides of the property and across the rear, shrubs contribute a delightful frame to the picture. They also give privacy and a beautiful background for annual and perennial flowers, besides their own beauty of flowers, berries and varying foliage colors.

Our large list of hardy varieties contains all the worth-while shrubs adapted to the rigorous climate of this section of the country. By thoughtful selection continuous interest may be obtained from early spring until late fall through successive blooming periods.

What delightful memories children will have of a yard like this

Heights of shrubs following the name denote size at which the plants present their maximum beauty.

ALMOND, Flowering. (*Amygdalus*.) 3 to 4 ft. Small, pink double flowers along stems in May. Needs winter protection. Though we have Flowering Almonds for sale, we suggest to our customers that the Double Flowering Plum be used instead. Flowering Almonds, except the Siberian Almond, are not strictly hardy in Minnesota while the double flowering plums are. They resemble one another closely.

2 to 3 ft. \$1.25 ea. 3 to 4 ft. \$1.75 ea.

ALMOND, Siberian. (*Amygdalus Siberica*.) 2 to 3 ft. This new variety of Almond is of dwarf growth, perfectly hardy without winter protection. The bush is completely covered with bright rose pink fragrant flowers early in the spring, about two weeks before the common flowering almond. The leaves turn to gold and red in the fall creating a beautiful appearance at that time also. Very desirable.

12 to 18 in. \$0.50 ea. 2 to 3 ft. \$1.00 ea.
18 to 24 in.75 ea.

ARALIA, Devil's Walking Stick. (*Aralia Spinosa*.) 7 to 8 ft. Attractive, tall-growing shrub with very prickly stems and large, deeply cut compound leaves 3 to 5 feet long. Tropical in appearance. Plant in protected locations. See cut, page 12.

2 to 3 ft. \$1.25 ea. 3 to 4 ft. \$1.75 ea.

Barberry (Thunberg's)

ARROWWOOD. (*Viburnum Dentatum*.) 6 to 8 ft. Flowers white, flat-topped, followed by blue berries in the fall. A large symmetrical growing shrub with bright green foliage coloring prettily in the fall. An elegant shrub to use in staggered shrub plantings, where height is wanted. The clean, attractive foliage is desirable as well as the flowers and berries. Birds like to eat the berries.

2 to 3 ft. \$0.75 ea.
3 to 4 ft. 1.00 ea.

BARBERRY, Thunberg's. (*Berberis Thunbergii*.) 2½ to 3 ft. A splendid dwarf shrub, conspicuous for its good foliage. The foliage is brilliantly colored in the fall and the attractive red berries cling well into the winter. A thrifty grower most anywhere. Good in front of taller-growing shrubs and as a hedge. See cut.

12 to 18 in. \$0.50 ea.
18 to 24 in.65 ea.
2 to 3 ft.85 ea.

(For Barberry hedge plants see page 21)

BARBERRY, Red-Leaved. 2½ to 3 ft. Similar to the Thunberg's Barberry excepting in foliage which is a deep purplish red. A valuable shrub for color in the border.

12 to 18 in. \$0.75 ea.
18 to 24 in. 1.00 ea.

BUCKTHORN, Common. (*Rhamnus Catharticus*.) 6 to 7 ft. A very hardy shrub with dark green foliage. It will thrive in exposed locations where many other shrubs will not succeed. Valuable when planted as a shrub or when planted as a hedge. Stands shearing well.

2 to 3 ft. \$0.50 ea. 4 to 5 ft. \$1.00 ea.
3 to 4 ft.75 ea.

BUCKTHORN, Glossy Leaved. (*Rhamnus Frangula*.) 6 to 7 ft. A handsome, tall shrub with shining dark green foliage. The yellow, inconspicuous flowers are produced all summer and are followed by red fruit, which changes to black. There are berries in all stages of development all summer. Birds are fond of these berries.

2 to 3 ft. \$0.50 ea. 4 to 5 ft. 1.00 ea.
3 to 4 ft.75 ea.

(For Buckthorn hedge plants see page 21.)

ROSE HILL NURSERY

BUTTERFLY BUSH. (*Buddleia*.) 3 to 4 ft. Also known as Summer Lilac, as the flowers resemble the common Lilac in general color and effect. It dies back with the frost in the fall and the dead wood should be cut back nearly to the ground; but the roots are usually uninjured and it quickly grows to a height of 3 to 5 feet or more in the spring. It blooms continually from July to frost, bearing long, slender, arching spikes of light blue, Lilac-like flowers, which are fragrant.

2 to 3 ft.....\$1.00 ea.

CARAGANA, DWARF. (*Caragana Pygmaea*.) A very neat growing shrub obtaining a height of about 24 inches. The leaves are very small and silvery green in color. Excellent border plant.

12 to 18 in.....\$0.75 ea. 18 to 24 in.....\$1.00 ea.

CARAGANA or SIBERIAN PEA TREE. (*Caragana Arborescens*.) 7 to 8 ft. One of our hardiest shrubs. Covered in May with bright yellow flowers, followed by long, slender pods. Will thrive in exposed trying locations, also in partial shade.

18 to 24 in.....\$0.50 ea.
2 to 3 ft......60 ea.
3 to 4 ft......85 ea.

CHERRY, PURPLE LEAF SAND or CISTENA. (*Prunus Pumila Purpurea*.) 4 to 5 ft. A fine, medium sized, upright growing shrub for color contrast in the garden. The purple foliage throughout the growing season is brightened by the red color of the new leaves at the ends of the branches. Small, single pink flowers.

2 to 3 ft.....\$1.35 ea.
3 to 4 ft..... 1.75 ea.
4 to 5 ft..... 2.25 ea.

CHERRY, Sand. (*Prunus Pumila*.) 3 to 4 ft. The small, numerous white blossoms in May and purplish black fruit later make this shrub an attractive addition to the shrubbery border. The fruit furnishes food for birds.

2 to 3 ft.....\$0.85 ea.
3 to 4 ft..... 1.00 ea.

COTONEASTER or QUINCEBERRY. (*Cotoneaster Acutifolia*.) 5 to 6 ft. An attractive, dense-growing shrub having shiny, dark green leaves that color beautifully in the fall. Very good for planting in the border, at the foundation or as a hedge. It is extremely hardy and can be depended on to grow where many other shrubs fail, especially in partially shaded areas. The small, inconspicuous, pink flowers are followed by blue-black berries. When food is scarce, birds feed upon these fruits.

12 to 18 in.....\$0.40 ea.
18 to 24 in......60 ea.
2 to 3 ft......75 ea.
3 to 4 ft..... 1.00 ea.

(For Cotoneaster hedge plants see page 21.)

Hydrangea Peegee
Flowers white changing to pink

Hydrangea, Hills of Snow, with white flowers Aralia in background

CRAB, Bechtel's Double Flowering. (*Malus Ioensis*.) A small tree with very lovely, double, fragrant, rose-like pink flowers in June. Splendid small tree for the lawn or when planted in the shrub border.

2 to 3 ft. high.....\$1.25
3 to 4 ft. high..... 2.00
4 to 5 ft. high..... 3.00

CRANBERRY, High Bush. (*Viburnum Opulus*.) 6 to 7 ft. A fairly large growing attractive shrub, decorative a large part of the year. The white flowers appear in flat clusters in early spring, followed by bright scarlet clusters of berries resembling cranberries that remain until late fall, long after the leaves have fallen. The leaves turn to bright autumn colors in September or early October. As the fruit is sour, the birds feed sparingly upon it.

18 to 24 in.....\$0.75 ea.
2 to 3 ft..... 1.00 ea.
3 to 4 ft..... 1.25 ea.

CURRENT, Alpine or Mountain. (*Ribes Alpinum*.) 3 to 4 ft. A rather low, dense growing shrub that is very desirable because of its many uses in the landscape. Equally attractive when used in the border, at the foundation or in a hedge. One of the few shrubs that grows well in either a shaded or sunny location.

12 to 18 in.....\$0.50 ea.
18 to 24 in......75 ea.
2 to 3 ft..... 1.00 ea.
3 to 3½ ft..... 1.25 ea.
(For Alpine Currant hedging, see page 21.)

DOGWOOD, Golden Barked. (*Cornus Aurea*.) 5 to 6 ft. Attractive in winter with its golden yellow bark, especially in masses with red-barked varieties. Clusters of small white flowers appear in spring. The white berries are eaten by birds.

2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.
4 to 5 ft..... 1.25 ea.

DOGWOOD, Red Twigged Siberian. (*Cornus Siberica*.) 5 to 6 ft. A superior variety of the Red Twigged Dogwoods. Its symmetrical growth and very bright red branches make it very desirable. It grows well in almost any soil and nearly as well in shady places as in sunny locations. The blossoms in spring are small white flowers in medium size clusters. Birds are fond of the white berries.

2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.
4 to 5 ft..... 1.25 ea.

DOGWOOD, Siberian Variegated Leaved. (*Cornus Siberica Variegata*.) 4 to 5 ft. The distinctly variegated green and white leaves make this plant very attractive. Its white flowers in spring and red bark are also interesting.

2 to 3 ft.....\$1.25 ea.
3 to 4 ft..... 1.50 ea.

Before and After
Planting

From desolation, this little house was transformed to a home within a fairy garden by means of plants and flowers.

ELDER, Cut-Leaved. (*Sambucus Canadensis Laciniata*.) 6 to 7 ft. The beautiful fern-like foliage and strong growth in either sunny or partially shaded locations make this plant very desirable. White flowers in large flat clusters blooming in the spring. The black berries are food for birds.

- 2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.

ELDER, Golden. (*Sambucus Aurea*.) 6 to 7 ft. The golden colored leaves contrast beautifully with the greens of other shrubs. Large flat heads of white flowers appear in spring. Leaves color best when planted in full sun. Bears black berries, attractive to birds.

- 2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.

ELDER, Red-Berried. (*Sambucus Racemosa*.) 6 to 7 ft. A vigorous growing shrub that stands partial shade. A great profusion of white flowers in spring are followed by bunches of red berries attractive to the birds.

- 2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.

EUONYMUS, Burning Bush. Wahoo. (*Euonymus Atropurpurea*.) 6 to 7 ft. A tall shrub covered in fall with bright red fruit which opens and displays the seeds enclosed in their scarlet aril. One of the most attractive fall shrubs. Flowers purple colored, stands shade.

- 18 to 24 in.....\$0.50 ea.
2 to 3 ft..... .85 ea.
3 to 4 ft..... 1.25 ea.

EUONYMUS. (European.) 6 to 7 ft. An upright growing bush with handsome dark green foliage which stays bright and healthy until late in the fall. Compact in form. Small yellow flowers. Red berries.

- 18 to 24 in.....\$0.50 ea.
2 to 3 ft..... .85 ea.
3 to 4 ft..... 1.25 ea.

Tatarian Honeysuckle

EUONYMUS, Winged Burning Bush. (*Euonymus Alatus*.) 5 to 6 ft. The green leaves that turn to fiery crimson in the fall grow on branches with interesting triangular, corky wings. The small yellow flowers in May and June are followed by red fruit in autumn.

- 2 to 3 ft.....\$1.50 ea.
3 to 4 ft..... 2.50 ea.

FORSYTHIA, Golden Bell. (*Forsythia Fortunii*.) 4 to 5 ft. The forsythias are among the very earliest shrubs to bloom, and before the snow is completely gone they give signs of awakening life. The arching branches are covered before the leaves appear with golden yellow, bell shaped flowers. Has clean, handsome foliage. Half hardy.

- 2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.

HONEYSUCKLE, Morrows. (*Lonicera Morrowi*.) 5 to 6 ft. A thrifty grower with arching branches well suited for general yard use. Creamy white flowers produced in May followed by bright red berries.

- 2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.

HONEYSUCKLE, Tatarian. (*Lonicera Tatarica*.) 6 to 7 ft. Outstanding tall shrub particularly fine for screening unsightly views, for the background shrubby border or as tall specimens. Strong, shapely bush covered with an abundance of attractive flowers in May and June, followed by showy red berries, of which birds are very fond. Bright green, luxuriant foliage. Grows rapidly, hardy everywhere, does well in sun or shade. Offered in light red, pink or white flowers. See picture.

- 18 to 24 in.....\$0.60 ea.
2 to 3 ft..... .75 ea.
3 to 4 ft..... 1.00 ea.
4 to 5 ft..... 1.25 ea.

(For Honeysuckle hedging see page 21.)

HYDRANGEA, Peegee. (*Hydrangea Paniculata Grandiflora*.) 3 to 4 ft. Medium sized shrub with immense conical shaped white flowers which later change to pink. These are produced in August and September when few other shrubs are in bloom. Flowers may be cut before freezing for winter bouquets. See cut page 12.

- 12 to 18 in.....\$0.75 ea. 2 to 3 ft.....\$1.25 ea.
18 to 24 in..... 1.00 ea. 3 to 4 ft..... 1.75 ea.

HYDRANGEA, Hills of Snow. (*Hydrangea Arborescens Sterilis*.) 3 to 4 ft. A valuable shrub for foundation planting or in the border, with large snow-white blossoms. Commences to bloom in June and continues until early fall. Will grow in partial shade. See cut, page 12.

- 12 to 18 in.....\$0.75 ea. 2 to 3 ft.....\$1.25 ea.
18 to 24 in..... 1.00 ea. 3 to 4 ft..... 1.75 ea.

JUNE BERRY. (*Amelanchier Canadensis*.) 5 to 6 ft. A beautiful May flowering shrub with every branch a mass of delicate, white bloom. The fruit that follows resembles blueberries in appearance and taste and is attractive to birds. A welcome addition to the shrub border.

- 18 to 24 in.....\$0.75 ea. 2 to 3 ft.....\$1.00 ea.

LILAC, Common Purple. (*Syringa Vulgaris*.) 7 to 8 ft. The old-fashioned Lilac. Fragrant purple flowers in May. Hardy, tall-growing. Favorites of old fashioned gardens and just as lovely today.

- 18 to 24 in.....\$0.60 ea. 3 to 4 ft. in clumps...\$1.75 ea.
2 to 3 ft..... 1.00 ea. 4 to 5 ft. in clumps... 2.25 ea.
3 to 4 ft..... 1.25 ea. 5 to 6 ft. in clumps... 3.50 ea.
4 to 5 ft..... 1.50 ea. 6 to 7 ft. in clumps... 5.00 ea.

(For Lilac Hedging see page 21.)

ROSE HILL NURSERY

LILAC, Common White. (*Syringa Vulgaris alba.*) 7 to 8 ft. Similar in growth to the purple. Flowers white.

18 to 24 in.....	\$0.60 ea.	4 to 5 ft.....	\$1.50 ea.
2 to 3 ft.....	1.00 ea.	5 to 6 ft. in clumps.....	3.50 ea.
3 to 4 ft.....	1.25 ea.	6 to 7 ft. in clumps.....	5.00 ea.

LILAC, Persian. (*Syringa Persica.*) 6 to 7 ft. A graceful Lilac. The branches are slender, leaves small size. The flowers are pale purple, fragrant and borne in large panicles.

18 to 24 in.....	\$0.60 ea.	3 to 4 ft.....	\$1.25 ea.
2 to 3 ft.....	1.00 ea.	4 to 5 ft.....	1.50 ea.

LILAC, Rouen. (*Syringa Rothomagensis.*) 6 to 7 ft. An improvement in both color of flower and manner of growth on the common Persian Lilac. Flowers are larger and reddish purple in color, produced in profusion. A very graceful shrub. No home landscape is complete without this lilac.

18 to 24 in.....	\$0.60 ea.	3 to 4 ft.....	\$1.25 ea.
2 to 3 ft.....	1.00 ea.	4 to 5 ft.....	1.50 ea.

The French Lilac, Ludwig Spaeth
Rich purple red in color

Lilac

FRENCH HYBRID VARIETIES

THESE splendid Lilacs are far superior to the common varieties, blooming much more consistently, with a greater profusion of larger flowers. The plants seldom send out sprouts around the plants as the old purple and white kinds do. They generally bloom the first year after planting. Available in a wide choice of flower colors, they constitute a most valuable group of shrubs. The following varieties are among the most hardy and very best Lilacs of this class.

ALFONSE LAVALLE. The lovely, double flowers of this variety are a delightful, clear lilac color. The flowers are large and the bush a general favorite.

2 to 3 ft.....	\$1.75 ea.	3 to 4 ft.....	\$2.25 ea.
----------------	------------	----------------	------------

CHAS. JOLY. A choice double dark red Lilac. The bush is an upright grower of medium size, producing freely, large clusters of gorgeous flowers.

2 to 3 ft.....	\$1.75 ea.	3 to 4 ft.....	\$2.25 ea.
----------------	------------	----------------	------------

CHAS. X. The deep reddish purple flowers of this Lilac are magnificent. The flowers are single and borne in large flower masses very profusely.

3 to 4 ft.....	\$2.25 ea.	5 to 6 ft. balled...	\$5.50 ea.
4 to 5 ft.....	3.25 ea.		

LUDWIG SPAETH. Single flowers. The red color a brilliant intense rich purple-red that holds up well in the sun and lasts a long time. Flower panicles are long and held erect well out from the foliage. It is a profuse bloomer, commencing to bloom when only two feet high. A most wonderful Lilac, and we take pleasure in recommending it. See cut.

2 to 3 ft.....	\$1.75 ea.	3 to 4 ft.....	\$2.25 ea.
----------------	------------	----------------	------------

MADAME LEMOINE. A fine, white Lilac which contrasts beautifully with colored Lilacs. Madame LeMoine is one of the very best double white flowering bushes. Blooms in abundance on a fine, strong plant.

2 to 3 ft.....	\$1.75 ea.	3 to 4 ft.....	\$2.25 ea.
----------------	------------	----------------	------------

MARIE LE GRAYE. The large, single white flowers are borne in great profusion even when the plants are very small. It is generally acknowledged to be the best single white variety.

2 to 3 ft.....	\$1.75 ea.	4 to 5 ft. balled...	\$4.25 ea.
3 to 4 ft.....	2.25 ea.		

MONT BLANC. One of the best of the single creamy whites. Compact and shapely in growth.

2 to 3 ft.....	\$1.75 ea.	4 to 5 ft.....	\$3.25 ea.
3 to 4 ft.....	2.25 ea.		

PRESIDENT GREVY. The violet colored blossoms are immense in size and very double. This bush is the most vigorous of the French sorts.

2 to 3 ft.....	\$1.75 ea.	4 to 5 ft. balled...	\$4.25 ea.
3 to 4 ft.....	2.25 ea.		

MAPLE, Tatarian. (*Acer Tataricum Ginnala.*) 8 to 9 ft. A graceful shrub-like tree with handsome foliage which turns red in autumn. The brilliance of this coloring is unsurpassed. This shrub should be in all massed shrubby plantings.

2 to 3 ft. high.....	\$0.75	4 to 5 ft. high.....	\$1.50
3 to 4 ft. high.....	1.00		

NINEBARK, Dwarf. (*Physocarpus Opulifolius Nana.*) 3 to 4 ft. One of the newer, dwarf, graceful shrubs. Nicely adapted to being planted close to the house or in the forepart of the shrub border. Has elegant small leaves, which color delightfully in the autumn. White flowers are borne in spring, followed by numerous attractive red pods.

2 to 3 ft.....	\$1.00 ea.	3 to 4 ft.....	\$1.25 ea.
----------------	------------	----------------	------------

NINEBARK, Golden Leaved. (*Physocarpus Aureus.*) 7 to 8 ft. The golden green colored leaves are most attractive when used with other shrubs. White flowers in clusters about the middle of June. Large growing.

2 to 3 ft.....	\$0.75 ea.	4 to 5 ft.....	\$1.25 ea.
3 to 4 ft.....	1.00 ea.		

NINEBARK, Tall. (*Physocarpus Opulifolius.*) 7 to 8 ft. Vigorous growing. Large white flowers in June followed by seed pods turning bright red in summer. Makes a good screen.

3 to 4 ft.....	\$1.00 ea.	4 to 5 ft.....	\$1.25 ea.
----------------	------------	----------------	------------

OLIVE, Russian. (*Elaeagnus Angustifolia.*) 10 to 12 ft. A large-growing shrub with silvery white foliage. One of the best for planting in dry, exposed locations.

2 to 3 ft.....	\$0.75 ea.	4 to 5 ft.....	\$1.25 ea.
3 to 4 ft.....	1.00 ea.		

PLUM, Double Flowering. (*Prunus Triloba.*) 5 to 6 ft. A very choice early spring blooming shrub of medium height, bearing, just before the leaves unfold, a profusion of delicate double pink colored rose-like flowers. Flowers resemble the flowering almond but the bush is hardier and more satisfactory. Many mistake this bush for the flowering almond. See cut.

18 to 24 in.....	\$1.00 ea.	3 to 4 ft.....	\$1.75 ea.
2 to 3 ft.....	1.25 ea.	4 to 5 ft.....	2.00 ea.

PLUM, Purple-Leaved. (*Newport.*) 6 to 7 ft. Large-growing shrub or small tree with shining purple leaves which hold their color well during the summer, contrasting beautifully with the green tones of various other shrubs.

3 to 4 ft.....	\$1.75 ea.	4 to 5 ft.....	\$2.00 ea.

Rugosa Roses

Hardy Without Winter Protection

THESE are especially valuable for growing in Minnesota on account of their hardiness. THEY NEED NO WINTER PROTECTION. Rugosa Roses are erect growing, with spiny stems and have tough crinkled foliage of a healthy green. They bloom throughout the summer and fall. Particularly useful for planting in shrubbery, in foundation planting, for hedges, along driveways, borders of properties and the like where the fragrant double flowers will be enjoyed by all. We recommend trimming them to one half their height each spring, thereby producing a larger number of new branches for more flowers and foliage.

PRICES ON THE FOLLOWING HYBRID RUGOSA ROSES

18 to 24 in.....	\$1.25
2 to 3 ft.....	1.50
3 to 4 ft. in Hansa only.....	1.75

BELLE POITEVINE. Clusters of large semi-double blooms of soft pink. The plants produce an abundance of flowers and bloom continuously all summer. A vigorous grower.

CONRAD FERDINAND MEYER. An early flowering variety combining the ornamental quality of its Rugosa foliage with the blossom beauty and perfume of the Hybrid Perpetuals. Flowers large, cup-shaped and double; a delicate silvery-pink.

F. J. GROOTENDORST. The flowers are small, fringed, bright red. Produced freely throughout the growing season in large clusters. A strong-growing plant with strong, healthy foliage of splendid quality.

HANSA. This is the rose that attracts so much attention every summer. The best double red Rugosa Rose. The plant is a strong healthy grower with fine dark, rich green foliage. The flowers are of large size and are most attractive with their rich, deep red coloring, perfectly double and fragrant. See picture below.

SIR THOMAS LIPTON. An excellent pure white Rugosa Rose. Strong and vigorous, grows four feet high. Flowers are double and fragrant, borne continuously throughout the season.

Hansa Rugosa Rose
Rich deep red flowers

Rose, Hugonis, clear yellow flowers

The modern style in planting is to use plant materials to the fullest extent possible that they bring to your grounds the color, the beauty and the charm for which the modern place is noted.

Bush Roses

Hardy Without Winter Protection

IN addition to the Hardy Hybrid Rugosa Roses the following are dependable and hardy without covering. They are quite varied in their form and have a wide appeal to those interested in roses. They are useful for planting with shrubbery and for naturalizing on banks. The flowers are delightful and the bright red fruit is very attractive during the fall and early winter. The fruits furnish about twenty-five species of birds with food, according to a government bulletin.

BLANDA. 3 to 4 ft. The canes are almost thornless and grow from three to five feet high. The soft, pink flowers measure two inches across and are borne in clusters. The bright red seed hips are attractive in winter. Desirable for covering banks and will grow in sandy or poor soil. Hardy everywhere.

18 to 24 in.....	\$0.50 ea.
2 to 3 ft.....	.60 ea.
3 to 4 ft.....	.85 ea.

HARRISON'S YELLOW. 4 to 5 ft. The soft yellow, semi-double fragrant flowers are borne during early June in great profusion and the foliage keeps bright and healthy-looking until late in the fall. The best semi-double yellow Rose for this section. This is the yellow Rose Grandmother grew.

Strong plants, 18 to 24 in.....	\$1.25 ea.
2 to 3 ft.....	1.50 ea.

HUGONIS. 4 to 5 ft. A yellow rose producing single flowers in great profusion early in the spring. The bush develops into a beautiful plant and retains its foliage throughout the late fall. The refined foliage is beautiful the entire growing season and the graceful growth of the bush makes it one of the

most desirable plants for shrub plantings. See cut, page 15.

2 to 3 ft.....	\$1.25 ea.
3 to 4 ft.....	1.50 ea.
4 to 5 ft.....	1.75 ea.

LUCIDA. 4 to 5 ft. This dense-growing handsome shrub has healthy bright green foliage. The single flowers are pink followed by shining red fruit which is attractive. Desirable for covering banks or in the shrub border.

2 to 3 ft.....	\$1.00 ea.
----------------	------------

RED-LEAVED ROSE. (Rubrifolia.) 4 to 5 ft. The intensely pink single flowers are borne in abundance upon upright stems with crimson foliage. The foliage remains red throughout the entire summer giving the bush a very attractive appearance from early spring when the first red leaves appear until late winter when the red fruit disappears. A fine bush to plant with other shrubs.

2 to 3 ft.....	\$1.00 ea.
----------------	------------

SNOWBALL. (Viburnum Opulus Sterilis.) 7 to 8 ft. A well-known shrub attaining a height of 8 to 10 ft. Flowers pure white in round clusters about the first of June. An old favorite. Striking in appearance when the bush is covered with snowball-like clusters of flowers. See picture.

18 to 24 in.....	\$0.75 ea.
2 to 3 ft.....	1.00 ea.
3 to 4 ft.....	1.25 ea.

SNOWBERRY, Red or Indian Currant. (Symphoricarpus Vulgaris.) 3 to 4 ft. Of low-growing, graceful habit. Numerous small pink flowers followed by interesting coral colored berries.

2 to 3 ft.....	\$0.75 ea.
3 to 4 ft.....	1.00 ea.

white flowers**

SNOWBERRY, White. (*Symphoricarpus Racemosus*.) 3 to 4 ft. A rather low-growing shrub with small pink flowers followed by a mass of very attractive white berries which cling late in the fall. Will grow well in sun or partial shade. Excellent for massing in front of taller shrubs or for planting against the house. Birds eat the berries. See picture, page 16.

2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.

SPIREA, Anthony Waterer. 2 to 2½ ft. One of the finest of low growing shrubs. It has attractive foliage and produces an abundance of rosy crimson flowers. By cutting off the old flowers, continuous new bloom will develop throughout the summer. Useful in foundation plantings and in the foreground of shrubbery borders. The autumn coloring of the foliage is beautiful. See picture.

12 to 18 in.....\$0.75 ea.
18 to 24 in..... 1.00 ea.

SPIREA, Arguta. 3 to 4 ft. A very graceful early flowering shrub blooming with white flowers before the Bridal Wreath. Slender arching branches clothed with feathery green leaves. Combines well with flowering plum as both bloom very early. See picture below.

18 to 24 in.....\$0.50 ea.
2 to 3 ft..... .75 ea.
3 to 4 ft..... 1.00 ea.

SPIREA, Snow Garland. 3 to 4 ft. Flowers resemble the Arguta and bloom about the same time. Snow Garland is more graceful and more bushy. Combines nicely with Bridal Wreath to prolong blooming season. Excellent for foundation planting.

18 to 24 in.....\$0.50 ea.
2 to 3 ft..... .75 ea.

**Spirea, Anthony Waterer
Bright Crimson**

SPIREA, Froebeli. 2 to 3 ft. Flowers bright rosy-red in flat clusters, produced during July and August. Foliage purple red in early spring and again in the fall. A desirable low-growing shrub and deserves being included in every planting.

18 to 24 in.....\$0.75 ea.
2 to 3 ft..... 1.00 ea.

SUMACH, Cut-Leaved. (*Rhus Typhina Laciniata*.) 5 to 6 ft. The lace-like graceful leaves of a pleasing green are very attractive, especially so when they turn in autumn to varied hues of crimson and gold.

2 to 3 ft.....\$1.00 ea.

SPIREA, Ash Leaved. (*Sorbaria Sorbifolia*.) 4 to 5 ft. Has long, feathery panicles of white flowers in July. Leaves resemble those of the Mountain Ash. Starts growth very early in spring. A thrifty grower, suitable for either sunny or shady locations. See picture, top of page.

18 to 24 in.....\$0.50 ea.
2 to 3 ft..... .75 ea.
3 to 4 ft..... 1.00 ea.

SPIREA, Billardi Rosea. 4 to 5 ft. Flowers spike shaped, rose pink in color. Starts blooming in late June and continues through August. See picture on page 16.

2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.

SPIREA, Bridal Wreath. (*Spiraea Van Houttei*.) 5 to 6 ft. A great favorite. White flowers produced so freely along the gracefully drooping stems that the foliage can hardly be seen. Very hardy, will grow in partial shade. See cut.

18 to 24 in.....\$0.50 ea.
2 to 3 ft..... .60 ea.
3 to 4 ft..... .85 ea.

ROSE HILL NURSERY

SYRINGA, Sweet-Scented Mock Orange. (Philadelphus Coronarius.) 7 to 8 ft. A vigorous growing shrub with sweet-scented white flowers in the greatest profusion about the middle of June.

2 to 3 ft.....	\$0.75 ea.
3 to 4 ft.....	1.00 ea.
4 to 5 ft.....	1.50 ea.

SYRINGA, Virginal. (Philadelphus Virginalis.) 6 to 7 ft. A magnificent variety, growing moderately tall with good foliage and compact habit. The sweetly fragrant, double flowers, two inches or more in diameter, are of the purest white and excellent for cutting. An unusual feature of this variety is that while it has an exceptionally gorgeous display of bloom in June and early July, it also blooms intermittently into the fall. See cut, page 17.

18 to 24 in.....	\$1.00 ea.
2 to 3 ft.....	1.25 ea.
3 to 4 ft.....	1.75 ea.

SYRINGA, Dwarf Golden Leaved. (Philadelphus Aureus.) 3 to 4 ft. A delightful dwarf shrub whose striking yellow foliage adds interest to foundation plantings or shrubbery borders. Fragrant white flowers in May and June. Will grow in full sun or in a shady situation.

12 to 18 in.....	\$1.00 ea.
18 to 24 in.....	1.50 ea.
24 to 30 in.....	2.00 ea.
30 to 36 in.....	2.50 ea.

SYRINGA, Large Flowered. (Philadelphus Grandiflorus.) 8 to 9 ft. A large and vigorous growing shrub, producing a great wealth of creamy white blossoms of unusual size.

2 to 3 ft.....	\$0.75 ea.
3 to 4 ft.....	1.00 ea.
4 to 5 ft.....	1.50 ea.

SYRINGA, Lemoine. (Philadelphus Lemoinei.) 4 to 5 ft. A trim dainty leaved member of the Mock Orange family. Semi-dwarf and fine for use in the foundation planting because of its neat habit. The white flowers grow in profusion and are delightfully perfumed. Blooms May and June.

2 to 3 ft.....	\$1.00 ea.
3 to 4 ft.....	1.25 ea.
4 to 5 ft.....	1.50 ea.

TAMARIX. (Tamarix Amurensis.) 5 to 6 ft. The feathery, blue-green foliage and mid-summer, pink flowers, in long, airy, graceful racemes, make this a very attractive shrub. Excellent for contrast among other shrubs or when planted singly. See picture.

2 to 3 ft.....	\$1.00 ea.
----------------	------------

WAYFARING TREE. (Viburnum Lantana.) 6 to 7 ft. Large, attractive, robust shrub, with soft heavy leaves and clusters of white flowers in June. The red fruit is attractive to birds.

2 to 3 ft.....	\$0.85 ea.
3 to 4 ft.....	1.25 ea.

WEIGELA. (Eva Rathke.) 3 to 4 ft. Blooms continuously throughout the summer. Flowers are a rich ruby color. Needs winter protection.

2 to 3 ft.....	\$1.25 ea.
----------------	------------

WEIGELA, Rosea. 3 to 4 ft. Rose colored trumpet shaped flowers in late June are produced very freely. Needs winter protection.

2 to 3 ft.....	\$1.00 ea.
----------------	------------

Feed Your Trees to Keep Them Healthy

A Well Designed Foundation Planting

Hybrid Tea Roses

Rose Hill Roses Are Famous for Quality

OUR roses are extra fine large plants that bloomed freely last summer, most varieties being 2 to 3 feet high and with ordinary care will produce an abundance of flowers this coming summer. No better roses can be purchased. Our plants have not been packed in boxes and exposed on bargain counters for days.

Double Ever-Blooming Hybrid Tea Roses

These are the so-called ever-blooming roses. If the bushes are kept healthy and in good growing condition, though they do not bloom all the time, one crop of flowers follows another at short intervals from June to late October. The flowers are very beautiful in color, form and fragrance. Winter protection is necessary. See bottom of page 20.

Extra heavy plants.....\$1.50 each, \$16.00 per doz.

BETTY UPRICHARD. Copper and Pink. Copper red buds open to good sized flowers of salmon-pink tinted with copper-pink on the outside. Spicy fragrance. Continuous bloomer.

DAME EDITH HELEN. Pink. A sweetly scented, clear pink Rose of fine form. This vigorous plant produces bloom freely on long, strong stems. See cut.

ETOILE DE HOLLANDE. Red. The half-opened flower is perfect in form and develops into a large, artistically loose bloom of brilliant crimson. It has wonderful fragrance. The plant is strong, with large, healthy foliage, and will thrive in almost all soils and situations.

FRAU KARL DRUSCHKI. White. A hybrid perpetual Rose. Considered the best white Rose of any class. The splendid, snow-white flowers have beautiful form. Blooms are borne freely on a strong growing plant. See cut, next page.

GRISS AN TEPLITZ. Red. The double blooms of medium size are brilliant crimson with darker shadings. Splendid fragrance. Blooms most freely in open clusters through the whole season. A universal favorite. See cut.

K. A. VICTORIA. White. Well formed, creamy buds develop into flowers of perfect form, snow-white with slight tint of yellow at the center. Fragrant. Extremely lovely.

KILLARNEY. Pink. Has long pointed buds opening to a flat flower with enormous petals. Bright pink in color. A very free-flowering, vigorous grower. See cut.

MRS. E. P. THOM. Yellow. Rated as one of the best yellows. A very free, continuous bloomer; growth strong and bushy. Flowers are pure yellow, buds pointed.

PINK RADIANCE. Pink. The most reliable pink Hybrid Tea Rose. Brilliant rose pink buds, opening to well-shaped, very fragrant flowers, which have splendid keeping quality when cut. See cut.

PRESIDENT HOOVER. Orange and Scarlet. Very highly colored, vivid cerise pink suffused with yellow, orange and scarlet. Delightfully perfumed. One of the newer Roses.

RED RADIANCE. Red. The flowers are large, deep red; produced freely until frost. Foliage excellent. A very popular Rose.

ROSE MARIE. Pink. Fragrant, clear, rose-pink flowers of large size, borne freely on plants of notable vigor and health. Always reliable.

GOLDEN RAPTURE. Pure clear yellow, profuse bloomer. Flowers are well shaped and fragrant. A new variety of outstanding merit.

TALISMAN. Copper and Red. Many beautiful shadings of scarlet, pink, copper and gold are all found in the flowers. Splendid for cutting.

Climbing Roses

A climbing rose in bloom is delightful to behold. The profusion of flowers in red, pink, or white with the background of green foliage is striking. Climbing roses need the support of a trellis of some kind. In the fall the canes should be taken from the trellis, laid upon the ground and covered with about a foot of marsh hay and over that a layer of water proof paper to shed moisture.

Extra heavy plants\$1.50 each

CLIMBING AMERICAN BEAUTY. Rosy Crimson. The delightful rosy crimson flowers are produced on separate stems in clusters. Their lovely fragrance and profusion of bloom give this rose high rank.

DOROTHY PERKINS. Pink. The rather large, double, clear shell-pink flowers are borne in pendulous sprays. The fragrant flowers do not fade in color.

DOROTHY PERKINS. White. A charming white form of the above.

EXCELSA. Crimson. The deep scarlet crimson blooms are produced in profusion in large clusters. A vigorous grower. Has largely replaced the Crimson Rambler.

PAUL'S SCARLET CLIMBER. Scarlet Red. The well-shaped scarlet flowers are of moderate size and borne in small trusses. They are borne early and last a long time. The plant is of moderate size with good foliage. See cut.

TAUSENDSCHOEN or THOUSAND BEAUTY. Pink. Prettily ruffled large flowers of shades of creamy white and changing to bright rose-pink. A healthy grower.

Paul's Scarlet Climber
Intense scarlet

Baby Rambler or Polyantha Roses

These rather small, bushy plants are the most truly ever-blooming of all roses. The bloom is borne in heavy clusters throughout the summer until frost. The size of the bush makes it especially adaptable to home yard plantings. Require careful covering for winter.

Extra heavy plants\$1.50 each, \$16.00 per dozen

CATHERINE ZIEMET. Double pure white flowers in abundance borne in large fragrant clusters.

GRUSS AN AACHEN. Large light flesh pink with a touch of salmon. Very double. Exceptionally good.

MISS EDITH CAYELL. The semi-double flowers are a brilliant scarlet red, rather small in size, produced in large clusters on well branched plants.

ELLEN POULSEN. Rather large, full flowers of bright rose-pink in large compact clusters. Fragrant; profuse blooming. Dwarf bushy plant. See cut.

HOW TO PLANT ROSES

1st. Dig a hole so large the roots won't be cramped.

2nd. Place plant depth shown. Fill hole nearly to top with rich soil. Water thoroughly to firmly settle soil.

3rd. Trim plant to about 7 or 8 inches in height as picture shows.

4th. Cover entire top of the plant with a mound of loose soil about 9 inches high.

5th. In about two weeks pull a little of the loose soil away to observe if buds are bursting open. If buds are opening, carefully pull away the mound of loose soil. If buds are still dormant leave the mound of soil until buds are observed to burst open, then remove mound.

WINTER COVERING—Cover for winter this same way and over the mound place about a foot of marsh hay, then a layer of building paper.

Hedges

Beautiful Borders of Living Green

PLEASE NOTE—25 or MORE plants are sold at the 100 rate.

THE most attractive wall or fence and the best is the living hedge. It does not need to be painted as it gives itself a new coat every year. A hedge will effectively screen out undesirable views or shut out trespassers. Plant a hedge where you need a fence. Listed below you will find hedge plants suited for all purposes and locations. Our plants are grown in the open nursery rows where they have been given ample room for both root and top development.

BARBERRY, Japanese or Thunberg's. (*Berberis Thunbergi*.) Of low spreading growth, forming a dense hedge. The twigg branches are set with small sharp thorns and bright, clean foliage which in the fall turns to gold and scarlet. The brilliant, red berries are attractive in the fall and winter. A fine plant for a low hedge whether trimmed or allowed to grow naturally.

12 to 18 in. \$30.00 per 100 2 to 3 ft. \$50.00 per 100
18 to 24 in. 40.00 per 100

BUCKTHORN. (*Rhamnus Catharticus*.) A very satisfactory plant to use when a medium high to tall hedge is wanted. It stands trimming so well that it can be kept for a long period at practically any height desired. The Buckthorn we offer have been transplanted and twice cut back, making the plants well branched right from the bottom. Many nurseries offer plants which are seedlings and do not have the root system or the low, well branched tops. See cut.

12 to 18 in. \$22.50 per 100 2 to 3 ft. \$35.00 per 100
18 to 24 in. 30.00 per 100 3 to 4 ft. 40.00 per 100

COTONEASTER or QUINCEBERRY. (*Cotoneaster Acutifolia*.) The fresh-looking, glossy green foliage of this plant and its thrifty, dense growth, combined with its hardiness, make it ideal as a hedge plant for use in Minnesota and surrounding states. Even during periods of extremely dry hot weather the foliage retains its healthy, glossy green color, having the appearance of being varnished. It stands trimming well. The foliage turns to lovely shades of yellow and red in the fall. The beauty of this hedge far surpasses any other hedge grown in the Northwest. Cotoneaster is unusually free from pests of all kinds but is occasionally infected with scale, which causes the branches to become roughened and of a grayish color. A very effective cure is to spray before the buds open in the spring (about April 1st) with a solution composed of 10 tablespoons of Dry Lime Sulphur and one gallon of water or one part Liquid Lime Sulphur and seven parts of water. The spraying must be done before growth starts. We especially recommend Cotoneaster to our customers. See cut.

12 to 18 in. extra fine heavy plants. . . \$20.00 per 100
18 to 24 in. extra fine heavy plants. . . 30.00 per 100
2 to 3 ft. extra fine heavy plants. . . 40.00 per 100
3 to 4 ft. extra fine heavy plants. . . 50.00 per 100

Alpine Currant Hedge on grounds of Women's Club of Minneapolis, 410 Oak Grove

Cotoneaster Hedge—The clean-appearing, glossy leaves and robust growth make this hedge a favorite

CURRENT, Alpine. (*Ribes Alpinum*.) Choice plant for use where a hedge of rather low growth is wanted. It is perfectly hardy and has dense foliage of a pleasing green. Will stand partial shade. We recommend this plant highly where a low hedge is wanted. See cut.

10 to 12 in. \$30.00 per 100 18 to 24 in. . . \$50.00 per 100
12 to 18 in. 40.00 per 100 2 to 3 ft. . . 60.00 per 100

HONEYSUCKLE, Tatarian. (*Lonicera Tatarica*.) For use as a large hedge this plant is very satisfactory. It is perfectly hardy and a strong grower. It has myriads of small attractive flowers followed by red berries.

2 to 3 ft. . . \$50.00 per 100 3 to 4 ft. . . . \$60.00 per 100

LILAC, Common Purple or White. (*Syringa Vulgaris*.) Though this plant yields readily to trimming, it is best suited for use as a hedge where it may be left untrimmed. The lovely flowers, one of its chief attractions, would not be produced if trimming were done. Should be planted only where the plants will have room to grow quite large. Please specify color wanted.

18 to 24 in. \$40.00 per 100 3 to 4 ft. \$60.00 per 100
2 to 3 ft. 50.00 per 100 4 to 5 ft. 75.00 per 100

SPIREA, Bridal Wreath. (*Spiraea Van Houttei*.) The splendid, graceful foliage and lovely white flowers of this plant make it very desirable for use where an unsheared hedge is desired. It is perfectly hardy and thrifty growing.

2 to 3 ft. . \$50.00 per 100 3 to 4 ft. \$60.00 per 100

Buckthorn Hedge

PLANTING THE HEDGE

We recommend planting Cotoneaster and Buckthorn 8 inches apart in a single row. If a very wide hedge is desired, plant in two rows, each row 8 inches apart and the plants one foot apart in each row, staggered.

The remainder of the plants listed on this page should be planted one foot apart in a single row.

Do not fail to trim every plant immediately after planting to at least one-half its original size. Leaving only the lower one-fourth would be still better. The secret of securing a dense hedge is to cause the plants to branch out near the ground by trimming as advised above.

HEDGE PLANTING CHARGES

A planting charge of thirty cents per lineal foot is charged for planting all varieties and sizes of hedge plants.

Climbing Vines

VINES create a graceful softening effect. The flowering beauty of many varieties has splendid merit and as shade givers they are very fine. Used to embellish an otherwise drab wall or ugly bank, they are indispensable.

BITTERSWEET. (*Celastrus Scandens*.) A hardy, strong-growing vine with glossy leaves. The yellow flowers are followed by conspicuous reddish-orange fruits, attractive on the vine and often used as indoor bouquets when dried.

2 year.....\$0.75 3 year.....\$1.00

CLEMATIS HENRYI. The lovely white flowers are truly gigantic in size. Growth is vigorous, often reaching eight feet in height.

2 year.....\$1.25 3 year.....\$1.50

CLEMATIS JACKMANI. The gorgeous display of bloom presented by this plant is unequalled among climbing vines. The striking purple flowers often measure six inches across. Being of refined habit it may be grown against the house and in other situations where a coarse-growing vine is not wanted. This Clematis is the most popular vine of all. See cut.

2 year.....\$1.25 3 year.....\$1.50

CLEMATIS, MADAME EDWARD ANDRE. Flowers are about the same size as the Jackmani, crimson red in color. Has a long season of bloom.

2 year.....\$1.25 3 year.....\$1.50

CLEMATIS PANICULATA. The flowers are white, small and star-shaped, very fragrant and so abundant as to almost hide the foliage. It blooms late in the summer when most other vines are through blooming.

2 year.....\$1.25 3 year.....\$1.50

DUTCHMAN'S PIPE. (*Aristolochia Sipho*.) A vigorous, rapid-growing climber with pipe-shaped flowers. The light green leaves are of very large size, and overlapping they cast a dense shade. \$1.25 each.

Boston Ivy

Neat foliage, clings well to brick or stucco

Clematis, Jackmani
Striking purple flowers

GRAPE, Beta. This Grape makes one of the best vines for covering porches and arbors. It is perfectly hardy without winter protection and produces an abundance of fruit of medium size.

2 year extra large.....\$0.75

HONEYSUCKLE, Scarlet Trumpet. (*Lonicera Sem-pervirens*.) An old favorite; bearing scarlet, trumpet-shaped blossoms. Flowers practically all summer. Interesting, attractive clean appearing foliage. This strong growing vine will often grow 8 to 10 feet in one season. Fine for covering arbors, trellis, etc.

2 year.....\$0.75 3 year.....\$1.00

CLEMATIS CULTURE

Plant in well drained rich soil. The hole should be deep enough to accommodate the roots without spreading too much. If the roots are very long and numerous they may be cut back to 6 or 8 inches and some of the weaker roots thinned out. The roots should be separated enough so that soil comes firmly into contact with all the roots. Water thoroughly once a week only, if rain has not already done the watering. As it is essential to keep Clematis roots cool and moist a mulch of peat moss may be used to advantage. A trellis is the best support for them to climb on.

IVY, Boston. (*Ampelopsis Vetchi*.) A very lovely small leaved vine, refined in habit. Clings firmly to such surfaces as presented by brick, coarse plaster, etc. The foliage is fresh deep green in summer, changing to the brightest shades of crimson and yellow in the fall. The most desirable ornamental self clinging vine for this section. See picture.

2 year.....\$1.00 3 year.....\$1.25

IVY, Engleman's. (*Ampelopsis Engelmani*.) Splendid to cover brick or stone walls or any other rough surface where a vigorous growing, clinging vine is wanted. It is a rapid grower. The young growth has a purplish tinge, maturing dull green and turning a bright crimson color in the fall.

2 year.....\$0.50 3 year.....\$0.75

Colorful Hardy Perennials

Flowers Which Live Year After Year in the Garden

THE plants we offer are strong field-grown perennials which in most varieties will bloom freely the first season and should not be confused with seedling plants so often offered for sale.

Perennials moved during the summer and early fall which require a ball of earth to assure successful transplanting are charged for at 10c each above the rate specified in this catalog.

NOTE—Plants suitable for rock gardens are marked thus*

ACHILLEA EUPATORIUM. Fern-Leaved Yarrow. Brilliant yellow flowers in flat heads in July or August. Foliage finely cut. Very hardy. May be dried for winter bouquets. Three to four feet. 35c each. 3 for \$1.00. 6 for \$1.90.

ACHILLEA, Ptarmica. Snowball. A new Achillea of neat habit, fine for borders. Flowers of perfect form. Blooms over a long period, June to September. 35c each. 3 for \$1.00. 6 for \$1.90. See picture.

ACHILLEA ROSEA. Rosy Milfoil. Dense heads of rosy pink flowers on 18 inch stems. Feathery foliage. Strong growing. Blooms July to October. 35c each. 3 for \$1.00. 6 for \$1.90.

ACONITUM FISCHERI. Monkshood. The helmet-shaped dark blue flowers are produced in September and October. A low-growing variety being 2 to 3 feet high. Very hardy and attractive. Will grow in partial shade. 50c each. 3 for \$1.40. 6 for \$2.70.

ANCHUSA ITALICA. Dropmore. Stately plants of easy culture growing 4 to 5 feet high and producing masses of rich gentian blue flowers in June and July. 50c each. 3 for \$1.40. 6 for \$2.70.

AQUILEGIA CANADENSIS.* American Columbine. The native bright red and yellow variety. Blooms June to August, 2 feet high. See picture. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA.* Crimson Star. Its flowers are very large with crimson sepals and spurs, and white petals; an entirely new color in Aquilegias. The plant has a sturdy free-flowering habit blooming June to August. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA CRYSANTHA.* Golden Columbine. The beautiful golden yellow flowers are in bloom from June to August, 2 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA CAERULEA.* Colorado Columbine. Lovely blue flowers with long spurs. June and July. 2 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA.* Mrs. Scott Elliot's Strain. Large size, long spurred flowers in all shades blooming from June to August. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA. Pink Beauty. Delightful bright pink flowers of large size. 35c each. 3 for \$1.00. 6 for \$1.90.

ARABIS ALPINA.* Alpine Rockcress. Dense masses of pure white flowers. 10 to 12 inches, blooms May to August. Fine for border and rockery. 35c each. 3 for \$1.00. 6 for \$1.90.

ARTEMISIA.* Silver King. A striking plant with silvery gray leaves. A brilliant contrast plant in the garden and lovely when cut for winter bouquets. 3 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

ASTER AMELLUS HYBRIDS. Large showy flowers of various shades of blue are profusely borne over the entire plant from August until frost. 2½ feet tall. 40c each. 3 for \$1.10. 6 for \$2.10.

ASTILBE. Gladstone. Erect spikes 18 inches long with snow white flowers. Delightful in bouquets. See cut, next page. 50c each. 3 for \$1.40. 6 for \$2.70.

ASTILBE. Gloria. These deep rose-pink flowers make a grand showing in the garden. 50c each. 3 for \$1.40. 6 for \$2.70.

ASTILBE. Peach Blossom. A beautiful peach blossom pink. Plant is compact and thrifty. 50c each. 3 for \$1.40. 6 for \$2.70.

ASTILBE. Pink Plume. Feathery plume-like pink colored flowers in June and July. Handsome foliage. Very attractive in the flower border. About two feet tall. 50c each. 3 for \$1.40. 6 for \$2.70.

BAPTISIA AUSTRALIS. False Indigo. Pea-shaped flowers of dark blue which resemble Lupines. Blooms in June, produced on 2 foot spikes. 35c each. 3 for \$1.00. 6 for \$1.90.

BOLTONIA LATISQUAMA. Profusely covered with thousands of starlike lavender-pink flowers on plant 4 to 6 feet tall. Excellent cut flowers for large gardens. August and September. 35c each. 3 for \$1.00. 6 for \$1.90.

Aquilegia
(Columbine)
Pink, blue, yellow,
crimson, or red and
yellow
All Aquilegias will
grow in semi-shade

Hardy Fall Aster or Michaelmas Daisy

THIS group of lovely autumn flowering perennials is of splendid value for use as a show flower in the garden or as cut flowers. The flowers are produced in great profusion on long stems that hold the blooms strongly upright and make cutting easy. Average height 3 to 4 ft. The following named varieties give a wide range of colors to choose from.

All 50c each. 3 of one kind for \$1.40. 6 of one kind for \$2.70.

BARR'S PINK. A vigorous growing plant having excellent pink flowers. 4 to 5 feet tall.

BEECHWOOD CHALLENGER. Lovely flowers of crimson red are produced in profusion.

BLUE DAZZLER. Very attractive light blue flowers. Striking when used in combination with the pink Asters.

HARRINGTON'S PINK. A truly pink fall Aster. A grand plant in the autumn with its striking bloom.

NOVAE ANGLIAE. A purple flower of outstanding merit. The almost fully double flowers are produced by the hundred on fine upright stems 3 feet tall.

ROYAL BLUE. A rich deep blue flower is borne quite early on a plant about 3 feet tall.

Achillea, Snowball

ROSE HILL NURSERY

CAMPANULA CALYCANTHEMIA. Cup and Saucer. Tall erect growing plants bearing profusely large cup and saucer shaped flowers during late May and June. Pink, white and blue. 35¢ each. 3 for \$1.00. 6 for \$1.90.

CAMPANULA CARPATICA.* Carpathian Harebell. A dwarf, compact plant 8 to 10 inches high. Flowers clear blue, bell-shaped, in July and August. A good border plant. 35¢ each. 3 for \$1.00. 6 for \$1.90.

CAMPANULA MEDIUM. Canterbury Bells. Large, bell-shaped flowers in blue, pink or white. A biennial 3 feet tall. Blooms late June and July. 35¢ each. 3 for \$1.00. 6 for \$1.90.

CAMPANULA PERCISIFOLIA. Peach Bell. Flowers of blue rather more shallow than bell-shaped. Grows from 2 to 3 feet tall. Has long narrow leaves and is very graceful. June and July. 35¢ each. 3 for \$1.00. 6 for \$1.90.

CAMPANULA PYRAMIDALIS. Chimney Bell Flower. Long stalks of blue or white flowers in August continuing for six weeks. In full bloom plant forms a pyramid. About four feet tall. 35¢ each. 3 for \$1.00. 6 for \$1.90.

CARNATION, Hardy Border. The most hardy variety of double carnations for the border. The brilliantly colored flowers are a riot of color. Their spicy fragrance and the perfect form of the flower make them valuable cut flowers. Bloom all summer. 35¢ each. 3 of one kind for \$1.00. 6 of one kind for \$1.90.

Offered in the following colors:

Bright Scarlet. A vivid, striking red carnation. Attractive in the garden and fine for cutting.

King of Blacks. Flowers of deepest maroon. Almost black.

Rose. A profuse bloomer with delightful rose pink flowers of good size.

White Gem. White flowers. Profuse blooming and fine for cutting.

Yellow. A delightful pale yellow. Like the others it is fine for cutting and blooms profusely.

Astilbe in red, white or pink

CENTAUREA, Macrocephala—Golden Centaurea. Perhaps the showiest of all the Centaureas because of the large size of the thistle-like flowers of golden yellow. Grows erect on strong stems. Blooms July and August. About 3½ feet tall. 35¢ each. 3 for \$1.00. 6 for \$1.90.

Hardy Chrysanthemums

CHRYSANTHEMUMS, Cushion Type. Sometimes called Azalia-mums. This group of low growing 'Mums form mounds of bloom about 18 inches high and spread about two feet. They flower early among the 'Mum group and are literally covered with hundreds of most attractive flowers. They bloom from early autumn until late freezing weather, after practically all other flowers are frozen. All priced at 50¢ each. 3 of one kind for \$1.40. 6 of one kind for \$2.70.

Bronze Cushion. Lovely bronze flowers turning to bronzy coppery yellow.

Pink Cushion-Amelia. The original 'mum of this type. Literally hundreds of lovely pink flowers.

Red Cushion. Red flowers in profusion similar to the others of this group.

Rose Cushion. Deeper in color than Pink Cushion but same habit.

OTHER HARDY CHRYSANTHEMUMS 60¢ each. 3 of one kind for \$1.65. 6 of one kind for \$3.00.

Varieties introduced by the University of Minnesota are marked thus ★

Algonquin. Showy pure yellow flowers measuring 2½ inches across. Dwarf spready habit.

Autumn Lights. Coppery bronze with a gleaming orange over-cast. Semi-double. Compact tidy growth.

Chippewa.★ A very showy flower, aster-purple in color and aster-like in shape. Bushy plant 20 inches tall. Flowers nearly 3 inches across. Blooms early to midseason. Very fine.

Clara Curtis. Lavender pink. Single daisy-like flowers are borne in profusion. Comes into bloom in August. Plants are about 18 inches tall and very profuse blooming.

Dahlia Flowered. The purple Bordeaux, flowers resemble a cactus dahlia. They are 2½ to 3 inches in diameter, double and are borne singly. Very showy, excellent for cutting. Midseason.

Dean Kay. Produces a great abundance of bright rose-pink double flowers on a vigorous plant.

Duluth.★ A rather tall upright type with semi-double yellow 2-inch flowers. Blooms early and for a long period, very floriferous.

Ember. A brilliant glowing bronze—a combination of coral and orange shades. Large double flowers.

Harmony.★ Carries several tones of colors. During the early season it is yellow, later becomes strawberry pink and as cool weather comes, turns deep Brazil-red. Covered with a mass of bloom for several weeks. Flowers 2¼ inches.

Polar Ice. Clear glistening blue-white flowers 2½ to 3 inches across. 20 inches tall.

Purple Star.★ Bright dahlia purple flowers, 2 inches in diameter. Very tall and upright with long stems, good for cutting. Very free flowering. Medium season to late.

September Gold. Compact pompom flowers 1½ inches in diameter, golden in color. Early to midseason. Plant is bushy, flowers have good stems and are borne freely.

Sun Red.★ Bright Brazil-red semi-double flowers over 3 inches across. Medium tall. Midseason.

Tassiva. Pure white double flowers of compact form about 2 inches in diameter. Freely produced and fine for cutting.

Waterlily.★ Suggests a white waterlily in full bloom. Medium tall. Early to midseason.

White Gull. This variety resembles the cushion type in manner of growth. The pure white flowers however are like the pompoms in form.

Yellow Dean Kay. Bright golden yellow double flowers, an enchanting addition to Chrysanthemum varieties.

Number 77. A new yellow variety with ruffled or lacinated petals. Very prolific blooming and most attractive in the garden or as a cut flower.

Number 81. A new 'mum with formal double flowers of clear yellow. Decorative in the garden and fine for cutting.

Number 107. A choice new deep orchid colored 'mum of great promise. Combines beautifully with the yellow or white 'mums in bouquets and for garden effect.

Chrysanthemums, offered in many varieties and colors.

Coreopsis, Golden Yellow

MRS. I. de VER WARNER. Of vigorous growth, free flowering, and with beautiful long stemmed blooms of a charming orchid-lavender color. Formal decorative.

PORTHOS. A dark velvety red. Profuse blooming. Decorative.

SCARLET BEAUTY. Scarlet in color as the name implies. Lovely flower about 3½ inches in diameter. Informal decorative.

WHITE KING. A general favorite with the commercial grower. Pure white, large with fine long stems. Formal decorative.

CENTAUREA MONTANA. Perennial Cornflower. Attractive violet-blue flowers, thistle-like in form. Blooms July to September. 2 feet. 35¢ each. 3 for \$1.00. 6 for \$1.90.

CENTAUREA DEALBATA. Large attractive rose-pink flowers, thistle-like in form. July and August. 2 feet. 35¢ each. 3 for \$1.00. 6 for \$1.90.

CERASTIUM TOMENTOSUM.* Snow in Summer. Snow white flowers produced in abundance during June through August. Silvery white foliage. 10 to 12 inches tall. Fine for borders or rock gardens. 35¢ each. 3 for \$1.00. 6 for \$1.90.

COREOPSIS. An abundance of golden yellow daisy-like flowers from June until October. Makes a fine showing in the garden and splendid for cutting as the stems are wiry and graceful. See picture, left. 2 feet. 35¢ each. 3 for \$1.00. 6 for \$1.90.

Dicentra (Bleeding Heart)
Pink flowers

Dahlias

Prices on Dahlias 50¢ each. 3 of one kind \$1.40. 6 of one kind \$2.70.

AVALON. A profuse blooming rich lemon-yellow dahlia of fine form.

JANE COWL. Warm buff and old gold blending to apricot and rose at the center. Informal decorative. Strong growing.

MAUDE ADAMS. Snow white with a blush of pink at the outer edges. Strong growing show type.

WHITE WONDER. The giant blooms are pure white with long pointed, twisted and curled petals, giving the flower a light, fluffy appearance. Informal decorative. Strong vigorous grower.

YELLOW KING. Clear, bright, lemon yellow flower of the formal decorative type. Excellent cut flower. Flowers about 5 to 6 inches in diameter.

YELLOW WONDER. Flowers of deep yellow. Medium to large in size. Prolific bloomer.

Delphinium—Larkspurs

DELPHINIUM BELLADONNA. One of the most continuous bloomers of all Larkspurs, with delicate clear turquoise blue flowers. 4 to 5 feet. 35¢ each. 3 for \$1.00. 6 for \$1.90.

DELPHINIUM BELLAMOSA. A very rich dark blue shade. Flowers on spikes 15 to 18 inches long, excellent for cutting. Blooms for a long period if kept cut. 35¢ each. 3 for \$1.00. 6 for \$1.90.

DELPHINIUM. Blackmore and Langdon Strain. Selected as one of the best of the English strains. Extra large flowers, excellently placed on strong, sturdy stems. Many of them measure over 6 feet in height. A blending of rich blues, mauves and pinks. 50¢ each. 3 for \$1.40. 6 for \$2.70.

DELPHINIUM CHINENSE. Handsome feathery foliage and deep gentian blue flowers. June through September. 1 to 2 feet. 35¢ each. 3 for \$1.00. 6 for \$1.90.

DELPHINIUM GOLD MEDAL HYBRIDS. This is an extra fine strain of strong vigorous habit with large spikes of flowers from two to three feet long; in fine shades of light blue to deep indigo blue and royal purple with pastel tones of mauve, pink and lavender blendings. Some forms are double, some single. See picture. 5 to 6 feet. 50¢ each. 3 for \$1.40. 6 for \$2.70.

DELPHINIUM, Giant Pacific Hybrids. These are the most beautiful of the Delphiniums. The stems are wiry, strong enough to resist high winds. Under good conditions, these plants will produce beautifully proportioned spikes 3 to 5 feet in height. The individual flowers are large, 2 inches in diameter. We strongly recommend the plants both for the bright landscape and for cutting. 50¢ each. 3 of one kind \$1.40. 6 of one kind \$2.70.

BLUE BIRD series. Dark blue shades.

BLACK KNIGHT series. Medium blue, white base.

GALAHAD series. Glistening white.

GUINEVERE series. Light pink-lavender.

DELPHINIUM WREXHAM. Hollyhock flowered. Stately plants with single, semi-double and double flowers forming spikes not unlike those of hollyhocks. Many shades of blue blended with pastel shades of mauve, pink and lavender. 50¢ each. 3 for \$1.40. 6 for \$2.70.

KING ARTHUR series. Royal violet, white base.

SUMMER SKIES series. The blue of the summer sky.

FINEST MIXED. Grown from seed harvested from specimen plants of the above named varieties.

Dianthus (Sweet William)
White, red and pink flowers in variations

DIANTHUS ALPINUS ALLWOODI.* Glossy leaves and large flowers in various shades of rose and pink. July and August. 6-inch. Splendid for rock gardens. 35¢ each. 3 for \$1.00. 6 for \$1.90.

DIANTHUS BARBATUS. Sweet William. The old-fashioned garden favorite. Flowers in color combinations of red, white and pink. 1½ to 2 feet. See picture. Blooms late May to July. 35¢ each. 3 for \$1.00. 6 for \$1.90.

DIANTHUS. Newport Pink. Pink, salmon and rose colored flowers of good size on 18-inch stems. Very free blooming and fragrant. 50¢ each. 3 for \$1.40. 6 for \$2.70.

DIANTHUS PLUMARIUS.* Clove Pink. Fragrant flowers in rose-pink and white. Handsome blue-green foliage. Splendid for rock garden or for edging. Blooms continuously if flowers are cut. 10 to 12 inches. 35¢ each. 3 for \$1.00. 6 for \$1.90.

ROSE HILL NURSERY

DICENTRA EXIMA.* Plumy Bleeding Heart. Beautiful finely cut foliage and pink heart-shaped flowers. Grows 12 to 18 inches high and blooms throughout the season. One of the choicest border plants. **60c** each. 3 for **\$1.65**. 6 for **\$3.00**.

DICENTRA SPECTABILIS. Bleeding Heart. The heart-shaped pink flowers have long been a favorite. Grows 2 to 3 feet tall and blooms during late April and May. See picture. **60c** each. 3 for **\$1.65**. 6 for **\$3.00**.

DICTAMNUS FRAXINELLA, Gas Plant, Pink. A very satisfactory perennial plant growing about 2½ feet in height, having fragrant foliage and spikes of rosy pink flowers blooming during June and July. It is not only effective while in full bloom, but the dark, persistent foliage is ornamental throughout the summer. The plant is as hardy as a peony and should be given fully as much space to develop. It is long lived and should not be disturbed by frequent transplanting. See cut. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

DICTAMNUS FRAXINELLA ALBA. Gas Plant, White. Similar to the Dictamnus described above but with white flowers instead of pink flowers. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

DIGITALIS GLOXINIAEFLORA. Foxglove. This stately plant is a biennial, bearing spikes of long tubular flowers. Mixed colors of rose, purple and white. 3 to 4 feet. Late June and July. See picture. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

ERIGERON SPECIOSUS. Large, handsome aster-like blue flowers, violet tinted with golden yellow centers, during June and July; fine for cutting; grows 2 to 3 feet high. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

EUPHORBIA POLYCHROMA. This plant grows into a very pretty, formal rounded clump about a foot high. Very attractive foliage. Covered in May and June with yellow flowers. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

FERNS, Hardy.* Their beautiful foliage should be in every yard. Very fine for shaded locations where other plants will not thrive. Extra heavy large clumps. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

FILIPENDULA. Meadow Sweet. White flowers borne in graceful feathery plumes. Handsome divided leaves. June and July. 18 to 24 inches. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

FORGET-ME-NOTS.* See Myosotis, page 29.

FUNKIA CAERULEA. Blue Plantain Lily. Handsome dark green foliage with blue lily-like flowers, borne on drooping spikes. Stands partial shade. Blooms July and August. 18 to 24 inches. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

FUNKIA SUBCORDATA GRANDIFLORA. White Plantain Lily. Bears large, pure white, lily-shaped flowers in August and September. Very attractive broad glossy dark green leaves. Stands shade. 24 inches. **60c** each. 3 for **\$1.65**. 6 for **\$3.00**.

FUNKIA VARIEGATA. Most attractive with its wide leaves of glossy green variegated with white. Blue flowers. Will grow in partial shade. Blooms July and August. 18 to 24 inches. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

GAILLARDIA GRANDIFLORA. Blanket Flower. A very showy flower in the garden and splendid for cutting. The center is dark red while the petals are crimson and yellow. A profusion of bloom from June to frost. 18 to 24 inches tall. See picture. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

GAILLARDIA, BURGUNDY. The reddest Gaillardia. Shining wine-red petals sometimes tipped yellow. Very effective. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

GYPHOPHILA PANICULATA. Baby's Breath. Remarkably numerous starchy, single white flowers, borne on thread-like stalks. Very fine for bouquets. 2 to 3 feet. July and August. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

GYPHOPHILA, BRISTOL FAIRY. A recently introduced double, ever-blooming Baby's Breath. Has larger, whiter flowers than the old Baby's Breath. Blooms from June to October. Lovely for fresh cut flowers and for winter bouquets it dries perfectly and does not discolor. Combines lovely in bouquets of fresh flowers, too. **75c** each. 3 for **\$2.10**. 6 for **\$3.90**.

HELENIUM AUTUMNALE. The flowers, borne in clusters, are colored golden yellow. Blooms August to October. 3 to 4 feet. Showy in the garden, fine for cutting. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

HELIOPSIS SCABRA ZINNIAFLORA. The showy flowers are double, golden yellow in color, and produced during July and August. They closely resemble the Zinnia in form. A desirable cut flower. About 24 inches high. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

Hibiscus

HEMEROCALLIS FLAVA. Lemon Daylily. Delightfully fragrant, clear lemon yellow flowers. 24 inches. June and July. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

HEMEROCALLIS, Florham. Trumpet shaped flowers of deep golden yellow with dusky yellow markings. The petals are delightfully frilled. June and July. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

HEMEROCALLIS FULVA. Tawny Day Lily or Golden Lily. The flowers are coppery orange, trumpet-shaped and produced on plants about 3 feet tall. Blooms June and July. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

Continued bottom page 27

Digitalis (Foxglove)

Gaillardia, Petals of yellow and crimson center deep red

Beautiful *Gladiolus* — Grand for Cutting

FOR beautiful flowers, available from July until late fall, there are none more dependable or magnificent than the Gladioli. Planted in clumps they are attractive in the garden and as a cut flower they have no peer. By planting at intervals, about one week apart, starting the first part of May and continuing to the middle of June, a succession of bloom may be had from July until late fall. Plant the bulbs in cultivated, well-drained soil about 5 inches deep. They do best in full sun. When cutting 3 or 4 leaves should be left to the plant which will allow the bulb to properly mature. After the first killing frost, take the bulbs up carefully and cut off the stalk about 1 inch from the bulb and allow it to dry about one week. Then pack in shallow boxes and place for the winter in a cool dry cellar where the temperature will not go below freezing. The following varieties are among the most lovely and dependable:

PRICES ON GLADIOLUS 3 all of one variety 30c 6 all of one variety 55c 12 all of one variety \$1.00

ROSE HILL BLUE RIBBON GLADIOLI COLLECTION. This assortment of bulbs consists of a wide range of colors and is sure to give you perfect satisfaction.

Gladiolus

ALADDIN. Salmon colored—ruffled.

BEACON. Orange scarlet with a yellow throat.

BEEWOLF. A tall late dark lavender.

CHARLES DICKENS. Rich purplish violet tint.

JEWELL. Most attractive salmon pink.

LEONA. Glowing purplish rose.

MAID OF ORLEANS. A very fine creamy white.

PAUL PFITZER. Rich velvety purple.

PEGGY LOU. Smooth deep rose pink, peppering of rose in throat.

PICARDY. Shrimp pink. Excellent.

PRIMROSE YELLOW. A most excellent yellow.

RED LIGHTENING. Brilliant red.

REWI FALLU. Very rich dark velvety red.

Hemerocallis

HEMEROCALLIS, Hyperion. A new plant considered by many to be the finest of the pale yellow day lillies. Flowers of citron yellow color are produced in abundance on sturdy stems near 40 inches tall. Grand for cutting, opening beautifully in water and having a most delightful fragrance. July and August. **75c** each. 3 for **\$2.15**. 6 for **\$4.20**.

HEMEROCALLIS KWANSO. A double-flowered variety with large, rich, golden bronze flowers in July and August. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

HEUCHERA SANGUINEA.* Coral Bells. Graceful spikes of coral-red flowers on plants growing 1½ to 2 feet tall. A compact foliage. Excellent for cutting and fine in the rock garden. June to September. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

HIBISCUS, MEEHAN'S MALLOW MARVELS. A magnificent strain of hardy Mallows, which for size and profusion of bloom and richness of coloring are among the most striking and beautiful perennials that grow. Flowers 8 to 10 inches in diameter ranging in color through various shades of red or pink. See cut, page 26. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

HOLLYHOCKS. Double-flowering. We offer these beautiful flowers in red, pink, yellow, white, maroon, rose and salmon-pink. They grow 5 to 7 feet tall. Blooms July and August. See picture on page 28. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**. Extra large **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

Delightful Iris

RICH IN COLOR

The Iris is a magnificent hardy perennial and a general favorite. They have been referred to as the Orchid of the hardy garden. The Iris offers innumerable color combinations of unsurpassed beauty, and the lovely structure of the flower is difficult to describe. It is one of our easiest perennials to grow, requiring a minimum of care and thriving under conditions of soil and weather in which other perennials would fail. In the following carefully selected list a splendid selection is offered.

ALL IRIS 35c each 3 of one kind for \$1.00 6 of one kind for \$1.90

German Iris—Assorted
Come in a wide variety of colors

SIBERIAN IRIS

SIBERIAN BLUE. Flowers are clear blue borne on long stems. Strong growing. Blooms later than German Iris. Valuable for cutting.

SIBERIAN WHITE. Same as above but white in color.

DWARF IRIS

IRIS PUMILA.* Dwarf Bearded Iris. Purple flowers. Grows about ten inches high, coming into bloom early in April. Suitable for border effect or in front of taller-growing varieties.

IBERIS SEMPERVIRENS. Candy Tuft. Sheets of pure white flowers borne on a dwarf plant 9 to 12 inches tall. Blooms early spring through June. Attractive border plant. 35c each. 3 for \$1.40. 6 for \$2.70.

LATHYRUS LATIFOLIUS. Hardy Sweet Pea. A rampant grower, resembling the annual Sweet Pea. Red and pink. Train on arches, pergola, fences, etc. 35c each. 3 for \$1.40. 6 for \$2.70.

LIATRIS PYCNOSTACHYA. Kansas Gay Feather. Long, narrow spikes of rich reddish purple flowers. 4 feet high. Striking in the rear of the border. See picture. 50c each. 3 for \$1.40. 6 for \$2.70.

Oenothera Fraseri
Satiny yellow flowers

GERMAN IRIS

CLARA NOYES. A delightful blend of yellow, apricot and orange. Talisman rose colors.

DAUNTLESS. Both standards and falls are velvety red. Large blooms on tall stiff stems.

DOLLY MADISON. Mauve standards arching and shading yellow at the base. Broad falls are lilac maroon veined. Beard bright orange. Strong growing.

ELIZABETH ENGELBERG. The broad standards are a beautiful blend of pink and lavender. The falls are aconite violet. General effect a mauve pink.

EVDADNE. The standards are rose violet, the falls are red.

GOLD IMPERIAL. A clear yellow with bright orange beard.

GOLDEN LIGHT. Rich cinnamon and orange. Unusual.

INDIGO BUNTING. One of the very best. A velvety dark blue.

LABOR. Dark violet overlaid with a copper and bluish sheen.

MADAM CHEREAU. Standards pure white, edged blue. Falls white with blue penciling. Very popular.

RAMESIS. A lovely pink-buff blend.

SELENE. A tall silvery white Iris of large size and heavy substance. Excellent.

SUSAN BLISS. A delightful deep pink tone.

TENNEBRAE. A rich colored Iris. The standards are violet-purple tinged with dark maroon purple and the falls are a rich velvety black purple.

VICTORIA LOUISE. The standards are sulphur and the falls are a rich plum color. (Maroon and gold.) One of the most showy of all Iris.

WHITE MARBLE. A striking tall white Iris with a gold beard.

Liatris, Kansas
Gay Feather
Rich purple

Double Hollyhocks
Available in a wide variety of colors

Regal Lily
White suffused with pink

LILIUM ELEGANS. A variety growing 18 inches tall with orange-red flowers in profusion. Blooms June and July. Very hardy. 35c each. 3 for \$1.00. 6 for \$1.90.

LILIUM REGALE. The Regal Lily. The flowers are white slightly suffused with pink. A beautiful shade of canary yellow at the center and extending part way up to the trumpet. Delightfully fragrant. A single stalk will often have ten to fifteen large blossoms. The finest Lily for Minnesota gardens. 3 feet. Blooms in late June and July. See picture. Blooming size 50c each. 3 for \$1.40. 6 for \$2.70. Extra large 75c each. 3 for \$2.10. 6 for \$4.00.

LILIUM TENUIFOLIUM. Coral Lily. Bright scarlet flowers with recurved petals on a slender, dainty plant about 18 inches tall. Blooms in June and July. Very fine. 35c each. 3 for \$1.00. 6 for \$1.90.

LILIUM TIGRINUM. Single Tiger Lily. A popular garden Lily with large, bright orange blossoms marked with dark spots. A robust growing Lily of easy culture. Blooms in June. 3 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

LILIUM TIGRINUM FL. PL. Double Tiger Lily. This magnificent Lily is borne in immense clusters on tall stems. The flowers are very large and very double. Color is orange-red spotted with black. Blooms in June. Hardy and strong growing. 3 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

LILY OF THE VALLEY.* Convallaria Majalis. The lovely, fragrant, white bell-shaped flowers are produced on plants about 10 inches tall. Does well in semi-shade. Blooms May and June. 35c each. 3 for \$1.00. 6 for \$1.90.

LINUM PERENNE.* Flax. Dainty, feathery foliage, and sparkling blue single flowers all summer. 18 to 24 inches. A very attractive and showy flower. 35c each. 3 for \$1.00. 6 for \$1.90.

Lychnis Chalcedonia
Brilliant vermilion scarlet

MINNEAPOLIS AND SAINT PAUL

LOBELIA CARDINALIS. Cardinal Flower. Grows 2 to 4 feet high, producing vivid crimson flowers on long spikes in August and September. 35c each. 3 for \$1.00. 6 for \$1.90.

LYCHNIS CHALCEDONIA. Campion. Brilliant vermilion-scarlet flowers in June and July. 2 to 3 feet high. A striking color in the garden. See cut. 35c each. 3 for \$1.00. 6 for \$1.90.

LUPINUS. Lupine. Among the most beautiful of all hardy flowers. Colors are both rich and delicate shades of blue, pink, etc., and are borne on long spikes that for size and beauty rival giant Snapdragons. The added novelty of being sweet scented makes these one of the best garden plants we have ever distributed. Blooms in June. 3 to 4 feet high. We offer the following colors: Blue, pink and mixed. 35c each. 3 for \$1.00. 6 for \$1.90.

Pentstemon
Utahensis

LYSIMACHIA NUMMULARIA.* Moneywort. This is an excellent carpeting plant to grow in semi-shaded or moist places. Crawls delightfully over rocks in the rockery and quickly covers bare, unsightly spots. Forms a dense carpet and bears bright, small yellow flowers in June. 35c each. 3 for \$1.00. 6 for \$1.90.

LYTHRUM ROSEUM. Loosestrife. The rose-colored spikes about two and one-half feet tall are very showy. Blooms July and August. 35c each. 3 for \$1.00. 6 for \$1.90.

LYTHRUM, Mordens. The clear rose-pink color of the flowers of this new variety is far superior to the color of the older sorts. The flowers are of good size and the plant is strong growing. Blooms July and August on a plant about four feet tall. 50c each. 3 for \$1.40. 6 for \$2.70.

MONARDA DIDYMA. Oswego Tea. An attractive plant for the perennial border. Brilliant crimson-scarlet flowers in close heads on plants 2 to 3 feet high, June through August. 35c each. 3 for \$1.00. 6 for \$1.90.

MYOSOTIS.* Forget-me-not. The charming little blue flowers, produced freely, have long been a favorite. Will thrive best in a moist, semi-shaded location. Blooms off and on all summer. 35c each. 3 for \$1.00. 6 for \$1.90.

NEPETA MUSSINI.* The silvery-grey foliage is aromatic. The hundreds of small flowers are lavender-blue. An excellent plant for edging or in the rock garden. 12 to 18 inches. May to August. 35c each. 3 for \$1.00. 6 for \$1.90.

OENOTHERA FRASERI. Evening Primrose or Sundrops. The satiny Poppy shaped yellow flowers are borne on 12-inch stems. Shiny, clean looking leaves. Blooms June and July. Does well in shade. See picture, page 28. 35c each. 3 for \$1.00. 6 for \$1.90.

PAPAVER NUDICAULE.* Iceland Poppy. Charming cup-shaped flowers on stems one foot high. Orange-yellow or white in color. A plant of neat habit with fern-like foliage. Blooms June through September. 35c each. 3 for \$1.00. 6 for \$1.90.

PAPAVER ORIENTALE. Oriental Poppy. The flowers of brilliant crimson are about six inches across and produced on plants about 2½ feet tall. Blooms in June. 35c each. 3 for \$1.00. 6 for \$1.90.

PAPAVER ORIENTALE. Mrs. Perry. Orange-apricot in color. Blooms in June. A very fine variety. 50c each. 3 for \$1.40. 6 for \$2.70.

PENTSTEMON. Blue Gem. A very dark blue flowered Pentstemon. Grows 18 inches tall. Very free blooming in July and August and good for cutting. 35c each. 3 for \$1.00. 6 for \$1.90.

PENTSTEMON. Utahensis. Flowers are a delightful shade of lavender blue, lightening to near white on the outer edges. See picture. 100 flowers or more per spike. 35c each. 3 for \$1.00. 6 for \$1.90.

Phlox

Peonies

Rival of the Rose

CARE should be taken in planting the Peony, to set the roots with the eyes about 1 to 2 inches below the surface of the soil. Planting too deep will prevent blooming though the plant may otherwise seem healthy. Peonies do best in a rich soil. Peonies are gross feeders. Thoroughly decomposed cow manure or commercial fertilizer should be used but care must be taken not to have the fertilizer come into direct contact with the roots.

We offer strong, regular size 3- to 5-eye roots and also extra large size 6- to 8-eye roots, as quoted after each variety below.

CHERRY HILL. A charming soft velvety, garnet red. Blooms very early on a tall plant with erect stems. Regular size roots \$1.00 each.

CLAIRE DUBOIS. Clear satiny pink flowers, with a glossy reflex. Blooms late midseason. Flowers are very large and rose type. Regular Size roots \$1.00 each. Extra large \$2.00.

COURONNE D'OR. Pure white with a circle of gold stamens. A very fragrant semi-rose type. Late midseason bloom. The cut flowers keep very well. Regular size roots 75c each.

DAVID HAREM. Flowers are soft rose color and of large size. Very strong stems hold the blooms erect. Fine garden or show variety. Regular size roots \$1.00 each. Extra large \$2.00.

ELWOOD PLEAS. Light shell pink flowers of very large size, flat, full and double, often six to nine on one stem. Fragrant. Late midseason. Regular size roots \$1.00 each. Extra large \$2.00.

FELIX CROUSSE. The bomb-shaped flower is a rich, brilliant ruby red. The flower is large and comes into bloom in late midseason. Regular size roots \$1.00 each.

FESTIVA MAXIMA. Early white with inner petals slightly tipped carmine. Free-blooming and fragrant. Regular size roots 75c each.

FRANCES WILLARD. Very large, white delicately shading pink. Pleasantly perfumed. Strong growing and lasting as a cut flower. Late midseason. Regular size roots \$1.25 each. Extra large \$2.50.

GROVER CLEVELAND. Dark crimson. A late rose-type, strong, vigorous grower with large, full flowers. Regular size roots \$1.50 each. Extra large \$3.00.

KARL ROSENFELD. Flower crimson, large, compact semi-rose type. Midseason. Very strong, tall and free blooming. Slightly fragrant. Regular size roots \$1.00 each. Extra large \$2.00.

L'ESPERANCE or EDULIS SUPERBA. Bright pink with slight violet shadings at base of petals. Large crown type. Early. Fragrant. Strong and upright in habit. A very free bloomer. Regular size roots 75c each. Extra large \$1.50.

LIVINGSTONE. Color a delightful pink with silver-tipped petals. Late dependable bloomer. Strong, erect growing. Regular size roots \$1.00 each. Extra large \$2.00.

LOUIS VAN HOUTTE. Fine violet-red bloom of dazzling effect. Very fine, shapely bloom. Medium to large flower. Mid-season. Regular size roots 75c each.

MARIAN PFEIFFER. Brilliant red without a trace of magenta. Spicy rose geranium fragrance. Tall profuse bloomer. Regular size roots \$1.50 each. Extra large \$3.00.

MIKADO. Shaped like a gigantic poppy. The flowers are velvety crimson with a gold center. Generally in bloom for Decoration day. The plant blooms freely and is a distinct favorite. Regular size roots \$1.25 each.

MONS. JULES ELIE. Color a beautiful pure pink. This is one of the finest peonies. Blooms early midseason. Flowers shaped like a giant chrysanthemum. Regular size roots \$1.00 each.

PHOEBE CARY. A very late pale old-rose pink, darkening toward the center. The plant is very tall with strong stems and good light green foliage. The flower is rose type, slightly cup-shaped, with large, broad petals. A desirable late variety that always opens well. Regular size roots \$1.00 each. Extra large \$2.00.

RUBRA SUPERBA. Rich red. Large full double blooms; fragrant. One of the really good late blooming varieties. Regular size roots \$1.00 each. Extra large \$2.00.

SARAH BERNHART. It is one of the strongest growers. Flowers are exceptionally large, apple blossom pink with each petal silver tipped. This flower must be seen to be fully appreciated. Fragrant. Regular size roots \$1.00 each.

SOLANGE. Cream with soft orange-salmon-pink undertone. Perfect rose type. Blooms late—strong growing. Rates very high. Regular size roots \$1.25 each.

SOUVENIR DE LOUIS BIGOT. Salmon-pink. Color a brilliant rose, slightly tinted carmine at the base, turning to a salmon-pink. Resembles Walter Faxon in color but stands up much better in the field. A real treasure. Regular size roots \$1.00 each. Extra large \$2.00.

Hardy Phlox

GLORY OF THE GARDEN IN MIDSUMMER

These beautiful hardy plants are the most colorful and attractive of all during late summer and early fall. Blooming most profusely, their brilliant colors admired by all, they make a wonderful display in the flower border. The following varieties have been selected for their strong growth, clear colors and profusion of bloom.

The Phlox we offer are all strong field-grown, two-year-old plants, sure to bloom the first summer.

All Phlox 50c each, 3 of one kind for \$1.40,
6 of one kind for \$2.70

Platycodon (Balloon Flower)
Flowers deep blue

AFRICA. A dazzling deep scarlet variety. Well shaped, large flowers produced on strong stems.

B'COMTE. Large panicles of rich, satiny purple flowers. Exceedingly brilliant, tall growing. Blooms midseason to late.

BEACON. Brilliant cherry-red of arresting beauty.

BLUE COMMANDER. An attractive shade of blue, a color uncommon in Phlox.

BRIDESMAID. A lovely white with crimson eye. Midseason.

BRILLIANT. The showy flowers are fiery scarlet with a deep red eye.

COLONIAL. A very pleasing light blue Phlox producing large flower heads.

COUNT ZEPPELIN. Pure white flowers with a vermillion red eye.

DAILY SKETCH. A very fine, distinctive, new Phlox. Flowers pink with a vivid crimson eye.

DR. CHAS. H. MAYO. A fine appearing Phlox with white flowers having a crimson eye.

E. I. FARRINGTON. Delightful salmon-pink shading to a soft pink. Of vigorous growth and erect habit. Good for cutting.

ENCHANTRESS. Bright salmon-pink with dark eye. A stronger grower with rich, glossy foliage. See cut.

FIREBRAND. A new bright orange-scarlet, almost vermillion. Medium height.

GEORGE STIPP. Glowing deep salmon with a lighter eye. Color does not fade.

HAUPTMAN KOHL. Large clusters of striking blood red flowers. Excellent.

LOTHAIR. Bright crimson flowers attracting attention wherever grown.

MISS LINGARD. Large clusters of flowers on strong stems with shiny green foliage. The best very early white.

MISS VERBOOM. This, in fact, is the rose-magenta form of Miss Lingard described above.

MRS. CHARLES DOOR. A lovely rose-lavender. Tall growing. The finest of all lavender-phlox.

MRS. JENKINS. A very fine, free flowering midseason white, of medium height.

PROF. VIRCHOW. Very showy, bright crimson overlaid with orange.

RIJNSTROOM. Heavy trusses of lively rose-pink flowers on a strong growing plant.

R. P. STRUTHERS. A blending of rosy carmine with claret red eye. Tall growing. Midseason.

STARLIGHT. Lovely purplish-violet florets with a white star.

TIGRESS. A glowing orange scarlet Phlox. Excellent.

VON HOCHBERG. Brilliant red. One of the best of this color.

VON LASSBURG. A splendid pure white, tall, midseason variety. Free flowering.

WIDAR. Most attractive violet with a clear white eye. A Phlox of medium height and a very satisfactory grower.

Dwarf Phlox

AMOENA.* Fine for carpeting the ground. Forms a sheet 4 inches high of bright pink flowers in the spring.

SUBULATA.* Moss Pink. Masses of pink bloom in early spring. Pretty moss-like evergreen foliage. Plant in full sun.

PHLOX SUBULATA ATRO. Completely covered with rich pale blue flowers. Neat, compact and free flowering.

PHYSOSTEGIA VIRGINICA. False Dragonhead. Long spikes of delicate pink flowers in July and August. Plant grows about three feet. 35c each. 3 for \$1.00. 6 for \$1.90.

PHYSOSTEGIA. Vivid. A new dwarf variety about 20 inches tall. Flowers are a deep pink and bloom in September. Very good cut flower. See cut. 35c each. 3 for \$1.00. 6 for \$1.90.

PHYSOSTEGIA. Rosy Spire. Fine spikes of rosy crimson flowers. Glossy foliage. Height 3 to 3½ feet. Blooms late summer. 50c each. 3 for \$1.40. 6 for \$2.70.

PLATYCODON GRANDIFLORUM. Balloon Flower. Large bell-shaped flowers of a deep shade of blue. Blooms July until late September. 2 to 3 feet high. See cut. 35c each. 3 for \$1.00. 6 for \$1.90.

PLATYCODON GRANDIFLORUM ALBUM. Similar to the above described plant excepting in color, which is white. 35c each. 3 for \$1.00. 6 for \$1.90.

PYRETHRUM HYBRIDUM. Persian Daisy. The daisy-like flowers are both single and double in shades of white, pink and red to deep crimson. The blossoms are produced on long, graceful stems, making it a very desirable cut flower. Blooms June and July. 24 inches tall. See picture. 40c each. 3 for \$1.10. 6 for \$2.10.

PYRETHRUM. Kelway's Dark Red. This is an improved form of the above described Pyrethrum. The flowers are dark red with a distinctive yellow center. 40c each. 3 for \$1.10. 6 for \$2.10.

Phlox Enchantress
Bright salmon pink with dark eye

Physostegia, False Dragonhead
spikes of pink

Rudbeckia, Cone Flower
Petals reddish purple, cone of brown

Shasta Daisy
White with yellow center

Veronica
Blue Spires
Spikes of
violet blue

PYRETHRUM ULIGINOSUM. Giant Daisy. Clusters of large daisy-like white flowers with yellow centers, blooms in late summer and fall. 4 feet tall. 40c each. 3 for \$1.10. 6 for \$2.10.

RANUNCULUS REPENS. Buttercup. A pretty double-flowering, bright yellow buttercup. Masses of blossoms during May and June. 1 foot high. The luxurious foliage makes a fine ground cover. Does well both in sunny and shady locations. 35c each. 3 for \$1.00. 6 for \$1.90.

RIBBON GRASS.* Phalaris Arundinacea Variegata. Very ornamental, green leaves striped lengthwise with creamy white. Grows about three feet tall. 35c each. 3 for \$1.00. 6 for \$1.90.

RUDBECKIA LACINIATA. Golden Glow. Produces masses of double dahlia-like golden yellow flowers from July to September. Strong grower, 5 to 6 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

RUDBECKIA MAXIMA. An attractive variety growing 5 feet high. Large bluish-green leaves and bright yellow flowers 5 to 6 inches across with a cone 2 inches high. Flowers from June to September. 35c each. 3 for \$1.00. 6 for \$1.90.

RUDBECKIA PURPUREA. Purple Cone Flower. Blossoms about four inches across of a peculiar reddish-purple, with a remarkably large cone-shaped center of brown. July and August. 3 feet high. See cut. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM ALBUM.* White flowers on a dwarf spreading plant with thick, waxy, round foliage. Fine for rockery. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM ACRE.* Golden Moss. A dwarf plant with a profusion of bright yellow flowers from June to July. 3 to 4 inches. Fine for edging the border or for rock gardens. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM BRILLIANT.* Stonecrop. Plant growing about eighteen inches high with light green glaucous foliage, large heads of showy bright rose colored flowers in late autumn. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM GLAUCUM.* A prostrate plant with blue green foliage. Small white flowers. Very good rock plant. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM LYDICUM.* The gray green foliage turns red in winter. White flowers, plant prostrate. Excellent for rock garden. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM STOLONIFERA.* Running Stonecrop. This variety is of creeping habit. Dull rose colored flowers. The leaves turn a beautiful crimson in the fall. 4 to 5 inches. 35c each. 3 for \$1.00. 6 for \$1.90.

Viola Cornuta—Tufted Pansies

The flowers resemble the common Pansy in form, though not quite so large. Of very free flowering habit, they bloom from April until October and constitute a most colorful addition to the garden. The following varieties are among the very best:

35c each, 3 of one kind for \$1.00, 6 of one kind for \$1.90

ARKWRIGHT RUBY. Wonderful large rounded flowers of ruby crimson with terra cotta and darker markings. Fragrant.

JERSEY GEM.* Pure, rich bluish-purple, slightly perfumed flowers. A most attractive variety.

LUTEA.* The flowers are a bright golden yellow, contrasting beautifully with the darker shades of other varieties.

PERFECTION. Light blue flowers in abundance all summer, very lovely planted with the yellow sort.

SCOTCH BORDER.* The flowers are a perfect riot of color, combining practically every shade.

SHASTA DAISY, ALASKA. Large white flowers with yellow center produced profusely nearly all summer. 12 to 18 inches. Excellent for cutting. A general favorite. See cut top of page. 35c each. 3 for \$1.00. 6 for \$1.90.

SHASTA DAISY. Floradale. Petals are shredded, quilled and gracefully incurved. Pure white. 40c each. 3 for \$1.10. 6 for \$2.10.

SHASTA DAISY. White Swan. A fine double flowered variety. Pure white. 40c each. 3 for \$1.10. 6 for \$2.10.

STATICE LATIFOLIA. Sea Lavender or Lavender Baby's Breath. Myriads of lavender colored tiny flowers resembling the general form of the Baby's Breath. Blooms August and September. Leathery, dark green leaves close to ground. Showy in the garden and splendid as a cut flower. May be dried for winter use. 60c each. 3 for \$1.65. 6 for \$3.00.

THERMOPSIS. Caroliniana. A lovely plant whose general appearance is that of a yellow lupine. Grows about 2 feet high. Blooms in June and July with 6- to 12-inch racemes of yellow, pea-like flowers. Rich green foliage. 50c each. 3 for \$1.40. 6 for \$2.70.

TUNICA SAXIFRAGA.* Coat Flower. Small pink flowers in the greatest profusion most all summer. 6 inches high. Fine for rockery. 35c each. 3 for \$1.00. 6 for \$1.90.

VERONICA RUPESTRIS.* A fine rock plant growing 3 to 4 inches high; thickly matted, deep green foliage, hidden in early June under a cloud of bright blue flowers. Does well in light shade and is also a good ground cover for shrub borders. 35c each. 3 for \$1.00. 6 for \$1.90.

Yucca, Adam's Needle
Milky white

VERONICA SPICATA.* Blue Spires. Spikes of violet-blue flowers in June and July. Gives splendid color to the border. See cut. 24 inches. 35c each. 3 for \$1.00. 6 for \$1.90.

VINCA MINOR.* Trailing Myrtle. A trailing plant, splendid for covering ground under trees and shrubs. Delightfully softens the effects of the rocks in the rockery. Flowers are blue resembling a small violet. 35c each. 3 for \$1.00. 6 for \$1.90.

YUCCA FILAMENTOSA. Adam's Needle. The creamy white flowers are bell-shaped and drooping. Produced on tall stems up to 4 or 5 feet. The foliage is sword-like and woody. July. See cut. 50c each. 3 for \$1.40. 6 for \$2.70.

Delicious Fruits

THE thrifty housewife has long known the savings made when fruits are grown at home. There is something about home-grown fruit that is different. It tastes better than any other. There is no investment that can be made that will bring as satisfactory returns as the purchase of fruit trees and berry bushes. Fruit trees are attractive when in bloom as well as when loaded with luscious fruit. Apples are a healthy fruit and may be had from August until Spring if a proper selection of varieties is made.

Underwood Plums

We recommend shipping fruit trees by freight or express. The 3 to 4 foot size and the 4 to 5 foot size may be shipped by parcel post.

Small fruits such as grapes, strawberries, currants, etc., can be shipped parcel post if desired.

Hardy Apples

Prices on Apples and Crabs Except Where Priced

4 to 5 feet.....	\$1.50 each; \$15.00 dozen
5 to 6 feet.....	2.00 each; 20.00 dozen
6 to 7 feet, 1 to 1 1/4 in. diam., extra fine for early bearing.....	2.50 each; 25.00 dozen

ANOKA. A very early and heavy bearer. A medium sized tree, with fruit in quality equal to the Duchess. Early August.

BEACON. Originated at the University Plant Breeding Farm at Excelsior, Minn. A fine new apple hardy and of high quality. Ripens mid-August about the same season as Duchess. Will keep three or four weeks after picking.

DUCHESS. An apple of large size and beautifully colored red. Bears when young and abundantly. Excellent quality. Ripens very early. Mid-August.

HARALSON. Originated by the Minnesota Fruit Breeding Farm. Solid red color of fine quality for cooking and eating. Tree bears when young. An all-winter keeper. One of the best winter apples for home use or market.

MINJON. Recently introduced from the Minnesota State Fruit Breeding Farm. A good quality eating and cooking apple resembling Jonathan. Ripens midfall. Season September to mid-December. Smooth, roundish nearly solid dark red. Hardy and productive.

NORTHWEST GREENING. Fruit is green, turning yellow as it matures. Firm and of large size. Good winter keeper. Fine cooking apple for late winter and spring.

PATTEN'S GREENING. Fruit large, green; flesh white, excellent for cooking and eating during October and November.

PRAIRIE SPY. This tree was originated and recently named by the Minnesota Fruit Breeding Farm. The fruit is carmine red, keeps all winter, is the finest flavored winter apple grown. The tree is hardy, productive and a good grower.

WEALTHY. Fruit of the best quality. Bears when very young. A good market variety. The favorite apple for this section. September to December.

YELLOW TRANSPARENT. A medium sized summer apple with an attractive lemon yellow waxen like skin. Flesh crisp and of good quality.

Hardy Crab Apples

See Prices Under Apples Except for Flame

Haralson Apple

DOLGO. A handsome tree with light green foliage and attractive red fruit. Fruit jells easily, a red jelly of excellent flavor. Very vigorous. The most dependable crab. Late August.

FLAME. (Minnesota No. 635.) This is primarily an ornamental crab but the fruits, though small, make an excellent red jelly. The flowers are similar to other crabs but are borne in great profusion. The tree is compact in growth and of medium size, suitable for lawn planting. The fruits are a brilliant red and hang tenaciously to the trees until midwinter, months after the leaves have fallen. The effect is a mass of flaming red color from August until November. Trees 5 to 6 feet high often have 250 or more brilliant red colored crabs. The fruit during December and January is attractive to winter birds. As an ornamental tree in the fall it rivals all other trees with its attractive bright red fruit. Among the ornamental trees in our nursery last fall this ornamental crab attracted by far the most attention.

3 to 4 ft. high.....	\$1.50	5 to 6 ft. high.....	\$2.50
4 to 5 ft. high.....	2.00		

HOPA CRAB. See page 9.

VIRGINIA. Strong-growing, free from blight. Red fruit of medium size. Good for eating, cooking or jelly. Early September.

WHITNEY. Very hardy and productive. Fruit red in color. Flesh of fine quality. Fine for eating or for sweet pickles. Early August.

Hardy Minnesota Plums

4 to 5 feet.....	\$2.00 each, \$20.00 per dozen
5 to 6 feet.....	2.50 each, 25.00 per dozen
6 to 7 feet in Superior & Underwood only.....	3.00 each, 30.00 per dozen

LA CRESCENT. The apricot flavored plum. Tree vigorous and productive. Fruit medium sized. Clear yellow, tender, fine grained flesh. Semi-free stone, juicy and sweet. Early August.

MONITOR. Tree vigorous and productive. Fruit large, almost round, color dark red, quality good. Late August.

SUPERIOR. A new, deep red plum of high quality. Fruit is large with small pit and ripens early. We recommend this new variety. Mid-August.

SURPRISE. An attractive red plum of good quality, especially valuable for pollenizing other varieties. August.

UNDERWOOD. Fruit attractive red with fairly firm, juicy flesh, small pit, clingstone, hangs well and ripens over a long period. A splendid variety. Early August.

Parker Pear (Minnesota No. 1)

Pears

No one need hesitate to plant Pear trees in Minnesota. All who saw the Minnesota State Pear Exhibit at the Minnesota State Fair were convinced that Pears of good size and fine flavor can be grown in abundance in Minnesota.

PARKER. (Minnesota No. 1.) Originated by the Minnesota State Fruit Breeding Farm. This is a good cooking and eating pear. The tree is a large, vigorous, free-growing type. Fruit medium in size, flesh tender. Mid-September. See picture.
4 to 5 ft.....\$2.00 each; \$20.00 per dozen
5 to 6 ft.....\$2.50 each; \$25.00 per dozen

Beta Grape

Cherries

EARLY RICHMOND. Red, acid, excellent for cooking or drying. Early July.
4 to 5 ft.....\$2.00
5 to 6 ft.....2.50

OKA CHERRY. Immensely productive, bearing next year after setting into orchard. Heavy, annual bearer of large, deliciously flavored fruit, having rich purple-red skin, flesh and juice unexcelled for canning, jam or jelly. Tree is very hardy; is of dwarf habit, making it easy to gather the fruit. Because of its early bearing and excellent fruit it is certainly a favorite, and we recommend it very highly. Early August.
3 to 4 ft.....\$1.50 each; \$15.00 per dozen
4 to 5 ft.....2.00 each; 20.00 per dozen

SAPA. This variety bears round, purple fruit excellent for canning. The flesh is purplish, juicy and sweet. Sapa often bears the next year after planting and is a heavy yielder.
4 to 5 ft.....\$2.00 each; \$20.00 per dozen
5 to 6 ft.....2.50 each; 25.00 per dozen

Grapes

GRAPES NEEDING NO WINTER PROTECTION

ALPHA. Fruit is larger than Beta and of good quality. Perfectly hardy without covering. 2-year.....\$0.55 each; \$5.50 per dozen
BETA. The Beta is perfectly hardy, a rapid grower, early bearer, good sized fruit, bunches often weighing one-half to one pound each, and of fair quality. Well adapted for covering porches, fences, etc., or will do well planted out by itself. A fine grape for jelly or grape juice. See picture.
2-year.....\$0.55 each; \$5.50 per dozen

GRAPES HARDY WITH WINTER PROTECTION

2-year.....\$0.55 each; \$5.50 per dozen
AGAWAM. Dark red, bunch and berries very large.
CAMPBELL'S EARLY. Round fruit, flesh rather firm but tender; quality rich and sweet.
CONCORD. A well-known black grape, medium size, early and of good quality.
MOORE'S EARLY. Black, earlier, larger and better quality than Concord, but not quite as productive.
NIAGARA. A greenish white grape. Bunches large and compact. Quality good.

Currants

2-year No. 1.....\$0.60 ea.; 5 for \$2.50; \$4.50 per ten
Extra Heavy Bearing Size......75 ea.; 5 for 3.00; 5.50 per ten
RED LAKE. A new red currant originated at the Minnesota Plant Breeding Farm. It is exceptionally large and of fine flavor. This variety has been tested for several years and has proven to be the largest and finest currant for both home and market use.
STEWART'S SEEDLING. Beautiful, light red fruit of large size and good quality. Bush a strong and healthy grower. Produces large quantities of fruit; excellent flavor. A profitable variety for market purpose.
WHITE GRAPE. The best white. Large, mild flavored, good for table.

Strawberries

ALL varieties except Bergundy offered below have perfect flowers and will bear fruit if planted alone.

EVERBEARING

EVERMORE. A new University of Minnesota introduction. Large handsome dark red berries with a glossy sheen. Early season quality of fruit excellent. Plants are strong growing and bear heavily.

25 for.....\$2.50 50 for.....\$4.50
100 for.....8.50

GEM. The berries are large, bright red and roundish in shape. Of good flavor and quality. It is a good market sort as the berries are firm and handle well without injury. Unlike most everbearers, this variety is a good plant maker.

25 for.....\$2.00 50 for.....\$3.75
100 for.....7.00

WAYZATA. This variety has proven far superior to all other strawberries at our nursery. The fruit is large, beautifully colored and the flavor is positively delicious. The plants are large, vigorous, healthy and splendid producers. Whether for home or market purposes, Wayzata is now commonly accepted as the best everbearing strawberry known.

25 for.....\$3.00 50 for.....\$5.50
100 for.....10.00

JUNEBEARING STRAWBERRIES

BEAVER. This variety is popular because of heavy yield, good color, early season of fruiting and good shipping qualities. The fruit is red clear through and it retains its color when canned.

25 for.....\$1.75 50 for.....\$2.75
100 for.....4.00

BERGUNDY. A new discovery of the University of Minnesota Fruit Breeding Farm. The fruit is attractive, glossy, red, fine quality and highly productive. The berries are red right through, retaining their color well when canned. It is also one of the best for shipping and for canning. Fruits late, thereby extending the strawberry season. The flowers are imperfect and should be planted adjacent to some perfect flowered variety such as the Catskill.

25 for.....\$1.25 50 for.....\$2.25
100 for.....4.00

CATSKILL. A heavy producing variety, berries large, of rich flavor and aroma. Bright red coloring. Plants sturdy and drought resisting. Fine for canning and ships well. Midseason. A good pollinizer for Bergundy.

25 for.....\$1.75 50 for.....\$2.75
100 for.....4.00

PREMIER. Early. It starts fruiting nearly a week earlier than Dunlap and maintains a heavy production for a long period. The berries are bright red, very firm, solid inside and maintain their size well throughout the season.

25 for.....\$1.90 50 for.....\$3.75
100 for.....5.00

SENATOR DUNLAP. This is the leading strawberry throughout the United States. It does well everywhere and produces enormous crops of fruit regularly. A first-class shipper and retains its brightness long after being picked. The best market berry.

25 for.....\$1.75 50 for.....\$2.75
100 for.....4.00

Blackberries

ANCIENT BRITTON. A popular market variety. The fruit is of fine quality, produced in great abundance.

\$2.75 per dozen; \$4.00 per 25; \$7.90 per 50.

Gooseberries

2-year each\$0.90; 5 for \$4.00

CARRIE. The fruit is a transparent green, turning to a rich wine or deep maroon color when fully ripe. One of the heaviest producers.

DOWNING. Large pale green berries, of good quality for dessert or cooking. Bush vigorous and productive.

PIXWELL. As the name implies, this new variety is easy to pick, as the berries hang about two inches below the branches. Berries are large, oval, attractive, light green ripening to pink.

Red Raspberries

CHIEF. The plant is very vigorous, stocky, very hardy. Season early, one week ahead of Latham. Fruit attractive bright red, firm, quality very good. This variety in some sections has outyielded Latham. See cut.

1st class plants:		Extra heavy selected plants for home gardens:

Black Raspberries

CUMBERLAND. A late fruiting black raspberry. Berries large and of fine flavor.

\$3.75 per dozen.

Chief Raspberry

Asparagus

WASHINGTON. Rust resistant; vigorous grower. Of very fine quality.

Per dozen	\$1.00
Per 25	1.65
Per 50	2.50
Per 100	4.00

Rhubarb or Pieplant

McDONALD. A strong growing plant having heavy brittle leaf-stalks. The red skin colors the sauce a rich pink color. Very productive and hardy for this section. Far superior to the common sorts.

Each	\$0.70
Per 3	2.00

RUBY. A new, early, delicious fleshed variety. When cooked the sauce is a rich red color due to the coloring in both the skin and the flesh. Tender skin need not be peeled. Can be used throughout the summer as stalks remain tender throughout the season.

Each	\$0.80
Per 3	2.30

Spraying Materials

SPRAYER (To Apply Liquids)

The glass container is easily detached and has a large opening for filling. Patented 2-way nozzle. Nozzle and feed tube of brass removable for cleaning. Price, \$1.25.

DUSTER (To Apply Powders)

To combat certain insects it is best to use a dust spray. The duster we offer, though inexpensive, is strongly built and will operate successfully with all insect powders. Use for dusting the listed Kolo Dust on evergreens, phlox, etc. to kill the red spider. Price, \$1.25.

BLACK LEAF 40

A highly recommended spray to kill plant lice and other sucking insects which cause the leaves to lose their color and curl up. Kills by coming into contact with the body of the insect. Directions on bottle.

1-oz. bottle \$0.35

DRY LIME SULPHUR

Dissolved in water it is used as a dormant spray against San Jose and Oyster Shell scale and as a summer spray against pine leaf scale.

1 lb. \$0.40

KOLO DUST

A very efficient powder spray to kill the red spider on evergreens, phlox, etc. Dust it on dry.

1 lb. \$0.30 2 lbs. \$0.50

ARSENATE OF LEAD (Powdered)

Kills all insects which eat the leaves, by poisoning them. May be dusted on dry or applied in liquid form. Directions are printed on the can.

One-pound can \$0.40

MARSH HAY (For Winter Protection)

Perennial flowers, roses and strawberries should be covered with marsh hay in late fall to protect them from alternate freezing and thawing, which causes winter injury. Marsh hay is practically free from foul weed seeds, which most upland hay contains. It is also easy to clear off the beds in the spring. One bale will cover about 200 square feet of garden. For sale during October and November. The use of leaves is not recommended as they usually mat down over the plants, preventing any circulation of air.

Price, per bale \$1.50 delivered in Twin Cities or \$1.25 when called for at Nursery.
